**2016**

Full Marks - 50

Time - 6 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Calibrate the given set of weights. 30

OR

b) Determine Poisson's ratio of rubber.

OR

c) Determine Young's modulus by bending of beams.

OR

d) Determine the thermal conductivity of the given bad conductor by Lee's disc method.

OR

e) Determine the mechanical equivalent of heat using Joule's calorimeter.

OR

- h) Beer-Lambert law validation in Colorimeter / Spectrophotometer.
2. Estimate and compare the soil moisture content and pore space of clay, loamy and sandy soil. 6
  3. Study the morphology and anatomy of the supplied specimen and give labelled diagrams. Comment on the adaptive features. 11
  4. Determine the plant community of an area by using quadrat method. Find out the number of plant species and frequency distribution of individual species. 7
  5. Viva-Voce. 6
  6. Class Record. 4

**2016**

Full Marks - 50

Time - 6 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. Perform any *one* of the following chosen by lot : 16
  - a) Determine the relation between transpiration and the transpiring surface.
  - b) Determine the Osmotic pressure of the Cell-sap of the given plant material by plasmolytic method.
  - c) Determine the D.P.D of a suitable plant material (storage tissue).
  - d) Study the effect of different known conc. of CO<sub>2</sub> on the rate of photosynthesis of a hydrophyte.
  - e) Determine the rate of photosynthesis of an aquatic plant in different wave length of light.
  - f) Determine the pattern of water uptake in starchy, proteinaceous and oily seeds.
  - g) Determine the absorbance maxima of Bromophenol blue.

3. Identify and comment upon the spots I to IV with reason.  $2\frac{1}{2} \times 4$   
(2 spots from Evolution and 2 spots from Biotechnology are to be given as per syllabus).
4. Practical Record and Sessional Preparation. 4
5. Viva-Voce. 6

V-9-0.5

**2016**

Full Marks - 50

Time - 6 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. Conduct any *two* experiments as per the instruction of examiners.  $10 \times 2$
- Determine the Conc. of Dissolved Oxygen in water by modified Winkler's Method.
  - Estimation of free CO<sub>2</sub> in water.
  - Determination of pH of water from different sources using pH meter / pH paper / Lovibond Comparator.
  - Study of an aquarium simulating aquatic ecosystem
2. Prepare *two* models of biomolecules as per the instruction of examiners. Characterise, identify and submit your prepared models.  $5 \times 2$

V-UG-Chem(H)-XI (Pr)

2016

Full Marks - 50

Time - 6 Hours

**2016**

Full Marks - 40

Time - 6 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. Find out Pattern Intensity Index of 3 persons. 5

OR

Find out Furuhashi's Index of 3 persons

2. Take your own palm print and find out hypothenar, thenar and interdigital area. 10

OR

Take a palm print and find out main line formula and finger ball patterns.

3. Write down the procedure of taking palm prints. 5

OR

How to find out main line formula.

4. Write down the procedure and technique of ABO blood group system. 10

OR

Find out the blood groups of your subject and write down the procedure adopted.

5. Record 4

6. Viva-Voce. 6

[ 2 ]

3. a) Examine the effects of taxation on production and distribution.

OR

- b) Direct tax and indirect tax are both competitive and complementary; Explain.

4. a) Distinguish between impact and incidence of a tax. Explain how the incidence of a commodity tax is determined.

OR

- b) Discuss the features of the Indian tax system and point out its short-comings.

5. a) Describe the various methods of debt redemption and examine their effects.

OR

- b) Budget is an effective instrument of economic policy. Elucidate.

V-UG-Eco(H)-VI

**2016**

Full Marks - 80

Time - 3 Hours

The questions are of equal value

Answer *all* questions

1. a) Discuss the features of public goods. How are they different from private goods ?

OR

- b) Explain the meaning and types of externalities. Examine the role of Government in correcting the externalities.

2. a) Account for the growth of public expenditure in recent years.

OR

- b) Critically examine the Bowen's theory of public expenditure.

**2016**

Full Marks - 80

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. Answer any *two* of the following : 15 × 2
  - a) Analyse the functions of tragedy as presented in Aristotle's Poetics. (Chapter VI)
  - b) Discuss Wordsworth's theory of poetic diction in his essay 'Preface to Lyrical Ballads'.
  - c) Eliot remarks, "Poetry is not a turning loose of emotion, but an escape from emotion ; it is not the expression of personality, but an escape from personality". Elucidate.
  - d) Explain Derrida's strategy of deconstruction for reading texts.

[ 2 ]

2. Write an essay on any **one** of the following in about 500 words. 30
- a) Indo-English Poetry
  - b) Shakespearean Sonnets
  - c) Victorian Novel
  - d) Literature and Mass Media.
3. a) What are the characteristic elements of an effective copy editing ? 10

OR

- b) Edit the following paragraph for publication :

It is only stupid people who take remarks too literally as we say that is who do not look for the real meaning in the statements people make. Thus when a friend says you will not be going past the post office will you, he may mean I should be grateful if you would post a letter for me if it is not too much trouble. If you say

[ 3 ]

No to the question because you are not going past the post office it means to your friend that you are not willing to go out of your way, even a little to oblige him.

4. a) Write a script for television news on derailment of some bogies of a train you recently travelled. 10

OR

- b) Prepare a feature article on constant mike nuisance in your town.

[ 2 ]

V-UG-His t(H)-VI

b) Explain the role of the U.N.O in relation to the Korean issue.

4. a) What is Cold War? Discuss its origin and impact.

OR

b) Discuss in detail the evolution of the Non-aligned movement.

5. a) Throw light on the Palestinian problems and their solution.

OR

b) Discuss briefly the Indo-Pak relations.

V-83-0.5

**2016**

Full Marks - 80

Time - 3 Hours

The questions are of equal value

Answer *all* questions

1. a) Examine the main provisions of the Treaty of Versailles. Was it a dictated peace ?

OR

b) Describe the formation and functions of several organs of the League of Nations.

2. a) Write an essay on the rise of Nazism in Germany.

OR

b) Discuss the causes of the Second World War.

3. a) Give an account of the origin, aims and organisation of the U.N.O.

OR

V-83

[Turn Over

f) Write a program to plot  $p = \sin x$ ,  $q = \cos x$  within the range  $0 \leq x \leq 2\pi$ .

g) Create the following matrix A

$$A = \begin{bmatrix} 3.4 & 2.1 & 0.5 & 4.2 \\ 4.2 & 7.7 & 4.5 & 3.9 \\ 1.8 & 3.5 & 4.6 & 3.7 \\ 8.9 & 8.3 & 1.5 & 3.9 \end{bmatrix}$$

i) The first, second and third columns.

ii) The first, third column.

iii) The diagonal that contains the value (0.5, 4.5, 3.9)

h) Write a program to find factorial of a number.

i) Write a program to check even or odd of a given number.

2. Viva-Voce. 5

3. Record 5

**2016**

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Study the velocity of ultrasonic waves of various liquids at different temperatures. 30

OR

- b) Determine the Hall coefficient and mobility of the specimen using Hall apparatus.

OR

- c) Determine the energy gap of given specimen using Fourprobe method.

OR

- d) Determine the velocity of ultrasonic waves in a liquid medium at any temperature using ultrasonic interferometer.

OR

3. a) Elaborate the causes and effects of Air Pollution. Mention the remedial measures to control air pollution.

OR

- b) Write short notes on :
- i) Wastes
  - ii) Pollutants
4. a) Critically examine the role of man in global ecological imbalance.

OR

- b) Discuss the measures being taken for a harmony between man and nature.
5. a) What is drought ? Discuss the impact and management of drought.

OR

- b) Write short notes on :
- i) Hazards
  - ii) Disasters.

**2016**

Full Marks - 60

Time - 3 Hours

The questions are of equal value

Answer *all* questions

Give diagram wherever necessary

1. a) Bring out the meaning and concept of environment.

OR

- b) Discuss the importance of light as a control of environment.

2. a) Give a brief note on the concept and functioning of ecosystem.

OR

- b) Write short notes on :
- i) Oxygen cycle
  - ii) Nitrogen cycle.

- b) In usual notations used in cluster sampling find an estimator of the population mean and hence compare its efficiency with that of simple random sampling. 6

OR

- c) Describe the procedure of two-stage sampling with equal first-stage units and give an expression for the estimator of population mean. 6
- d) In two stage sampling with equal first-stage units show that the sample mean  $\bar{y}_2$  is an unbiased estimator of  $\bar{y}$  with

$$V(\bar{y}_2) = \left(\frac{1}{n} - \frac{1}{N}\right) S_b^2 + \frac{1}{n} \left(\frac{1}{m} - \frac{1}{M}\right) S_w^2$$

where symbols have their usual meaning. 6

Answer *all* questions

1. a) What is a Sample Survey? In what respects it is superior to a Census Survey? 6
- b) Discuss briefly the main steps involved in a sample survey. 6

OR

- c) Describe different sources of errors in a sample survey. How can they be controlled? 6
- d) Write notes on : 6
- i) Sampling unit
  - ii) Sampling frame
  - iii) Finite population correction factor.

2. a) Define random sampling. How is it preferred to other methods of sampling? 6

[ 2 ]

- b) Prove that in SRSWOR sample mean square is an unbiased estimator of population mean square. 6

OR

- c) Describe the procedure of stratified random sampling. Under what condition is stratified random sampling is better than simple random sampling? 6
- d) Compare the efficiency of Neyman and proportion allocation with that of an unstratified random sample of same size. 6
3. a) Explain systematic sampling and state the circumstances when it is optimum. Obtain an unbiased estimator of population mean and derive its variance. 6
- b) Prove that the systematic sample mean is more precise than the mean of simple random sample without replacement if  $S^2_{wsy} > S^2$ . 6

OR

[ 3 ]

- c) Describe the procedure of selecting a sample with varying probabilities and hence find an estimate of the population mean. Taking population size  $N$  and sample size  $n$  derive its variance. 12

4. a) Explain the ratio method of estimation. Suggest an estimator of the population mean by this method. Find an expression for its bias. 6
- b) With the help of difference estimator obtain simple regression estimator of population mean. Derive its expectation and variance. 6

OR

- c) Describe ratio and regression methods of estimation. Give a comparison of simple regression estimator with that of ratio estimator of population mean. 12
5. a) Define cluster sampling and state the necessary condition for validity of cluster sampling with help of an example. 6

[ 4 ]

- c) What is Adsorption ? What are the factors influencing the process. 2 + 2
- d) Explain the following terms : 2 + 2 + 2
- i) Chemisorption
  - ii) Zeta Potential
  - iii) Transmittance.
6. a) Discuss the phase diagram of water. 6
- b) What are Ideal and Non-ideal solutions ? Explain Azeotropic mixture with example. 2+1+1
- OR
- c) State Nernst Distribution Law. How can this be derived ? 2 + 4
- d) Draw and explain phase diagram of  $\text{CuSO}_4\text{-H}_2\text{O}$  System. 4

*Give labelled diagrams wherever necessary.*

1. What is absorption of water ? Describe the mechanism of water absorption in plants.

OR

Write notes on any *two* of the followings :

- a) Plasmolysis
- b) Water potential
- c) Mechanism of stomatal movement.

2. What is cyclic and non-cyclic photophosphorylation ?  
Give an account of electron transport in chloroplast.

OR

[ 2 ]

Write notes on any *two* of the followings :

- a) Photorespiration
  - b) Emerson's enhancement effect
  - c) C<sub>4</sub> plants.
3. Describe the reaction steps of Krebs cycle with the role of enzymes in each step. Add a note to its significance.

OR

Write notes on any *two* of the followings :

- a) Factors affecting respiration
  - b) Properties of enzyme
  - c) Isoenzyme.
4. Describe the phenomenon of photoperiodism in higher plants and discuss the mechanism involved.

OR

Write notes on any *two* of the followings :

- a) Transcription
- b) Biological nitrogen fixation
- c) Central dogma.

[ 3 ]

5. What is phytohormones? Describe the structure and physiological role of gibberellins in plant growth.

OR

Write notes on any *two* of the followings :

- a) Causes of dormancy of seeds
- b) Mechanism of senescence
- c) Biological clock.

V-71-0.5

V-73-0.5

1. a) What is the main advantage of passing arguments by reference ? Write a program to compute the area of a triangle and circle by overloading the area ( ) function. 2 + 4
- b) What is friend function ? Give an example of using friend function 6

OR

- c) Differentiate between a constructor and a destructor. Describe different types of constructors used in C++ with suitable syntax 12
2. a) What is Polymorphism ? How is it achieved in C++ ? 6

[ 2 ]

- b) What is virtual keyword ? Give an example of using virtual keyword. 6

OR

- c) What are exceptions ? What happen when an unexpected exception in raised ? 6
- d) What is inheritance ? Give an example of multilevel inheritance. 6
3. a) Describe various classes available for file operations. 6
- b) Describe the various approaches by which we can detect the end-of-file condition successfully. 6

OR

- c) Write shortnotes on : 12
- i) Command line Arguments
- ii) File Modes

[ 3 ]

- iii) Object Oriented System Development
- iv) Booch's Model.

4. a) What is meant by geometric transformation ? Describe translation, scaling and reflection in geometric transformation. 12

OR

- b) Explain the technique used in CRT with a required diagram. 6
- c) Find the pixel illuminated by DDA algorithm when two end points P1(1, 1) and P2(-8, -4). 6
5. a) Explain Z-buffer algorithm for hidden surface elimination. 6
- b) Write notes on the following : 2 × 3
- i) Polygon clipping
- ii) Projection.

OR

3. Give an account of the characteristics of population.

OR

Write notes on any *two* of the following :

- a) Waterborne diseases
- b) Human health and environment
- c) Mortality.

4. Discuss briefly deforestation, afforestation and social forestry.

OR

Write notes on any *two* of the following :

- a) Soil erosion
- b) Alternate energy resources
- c) Renewable energy resources.

5. What is Biodiversity ? Describe different methods of Conservation of Biodiversity.

OR

Write notes on any *two* of the following :

- a) State Pollution Control Board
- b) Wild Life Protection Act
- c) Air Act.

**2016**

Full Marks - 100

Time - 3 Hours

Answer *all* questions of any *one* of  
the following groups

**GROUP-A**

(FM)

1. a) What is the scope of finance function in a business enterprise ? Should the goal of financial decision making be profit-maximisation or wealth-maximisation ? 6 + 10

OR

- b) A company is considering an investment proposal to purchase a machine costing ₹2,50,000. The machine has life expectancy 5 years with no salvage value, Tax rate 40%. The company follows straight line method for providing depreciation. Estimated cash flow before Tax after depreciation from the machine are as follows : 16

[ 2 ]

Year	Cashflow before Tax after Depreciation (₹)
1	60,000
2	70,000
3	90,000
4	1,00,000
5	1,50,000

Calculate :

- i) Pay-back period
- ii) Average rate of return
- iii) Net present value and profitability index at 10% discount rate

Year	1st	2nd	3rd	4th	5th
PV factor 10%	0.909	0.826	0.751	0.683	0.621

2. a) Define the concept of "Cost of Capital". State how would you determine the weighted average cost of capital of a firm. 16

OR

[ 3 ]

- b) A company issues ₹10,00,000, 12% debenture of ₹100 each which are redeemable after 7 years. Tax rate is 35%. Calculate cost of debt after Tax if debentures are issued at (a) par (b) 10% discount (c) 10% premium.  
Take brokerage 2% in all the cases. 16

3. a) Write notes on : 8 + 8
  - i) Financial leverage
  - ii) Operating leverage.

OR

- b) Find the operating leverage from the following : 8  
Sale ₹500,000  
Variable Cost 60%  
Fixed Cost ₹1,20,000
- c) Find the financial leverage from the following data : 8  
Net worth ₹50,00,000  
Debt/Equity 3/1  
Interest rate 12%  
Operating profit ₹40,00,000.

[ 4 ]

4. a) Write notes on : 8 + 8  
i) The irrelevance concept of dividend  
ii) The relevance concept of dividend.

OR

- b) A company has 1,00,000 shares selling at ₹100 each. The appropriate capitalisation rate is 10%. The firm is contemplating the declaration of a ₹6 dividend at the end of the current financial year, which has just begun :

- i) What will be the price of shares at the end of the year (i) if dividend is declared and (ii) if dividend is not declared, basing on the MM model
- ii) Assuming that the firm pays dividend, has net income ₹10,00,000 and makes new investment of ₹20,00,00 during the period, how many new shares must be issued, based on MM model. (Assume no tax in both the cases) 16

5. a) What do you mean by 'Inventory' and 'Inventory Management'. What are the objectives of such management ? Briefly discuss some tools and technique of Inventory Management. 16

OR

[ 5 ]

- b) What do you mean by working capital? What will be the repercussions if a firm has (a) Inadequate working capital (ii) Redundant working capital. 16

### GROUP-B

(POM)

1. a) What is meant by marketing? Explain the nature and importances of marketing for a modern business. 4 + 12

OR

- b) i) Distinguish between marketing and selling. 8  
ii) Bring out the differences between traditional and modern market concept. 8

2. a) What do you understand by consumer behaviour? Discuss its scope and significances. 4 + 12

OR

[ 6 ]

- b) Discuss the concept and importances of market segmentation. 16
3. a) What do you mean by product planning and development? Describe the techniques and processes of product planning and development. 4 + 12

OR

- b) Discuss the factors affecting the price of a product. 16
4. a) Describe the meaning and characteristics of channel of distribution. Explain the role of channel of distribution for promoting sales. 8 + 8

OR

- b) What is meant by physical distribution? Why is it important to business. Discuss the various components of channel of distribution. 4 + 12
5. a) What is Advertisement? Explain its features and implications. 4 + 12

OR

[ 7 ]

- b) What is Personal Selling? Describe the steps involved in personal selling. Explain the functions of a Sales man. 3 + 5 + 8

**GROUP-C**

*(IBS)*

1. a) Discuss the various functions of Commercial Banks. 16

OR

- b) Discuss the recent trends in Indian Banking System. 16

2. a) Discuss the functioning and role of State Bank of India in agriculture. 16

OR

- b) Describe the organisational structure of S.B.I. 16

3. a) Discuss the applicability of the Banking Regulation Act to Co-operative Banks. 16

OR

[ 4 ]

7	10,000
8	15,000
9	10,000
10	4,000

Using 10% as the cost of capital, determine the net present value and profitability index of the investment. 16

OR

b) Give a comparative description of net present value method and internal rate of return method. 16

5. a) Explain in brief PERT, CPM, bringing out the distinguishing features. 16

OR

b) Write shortnotes on :  $4 \times 4$

- Event
- Activity
- Pessimistic time
- Float.

2016

Full Marks - 80

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Briefly describe the simplex method of solving a linear programming problem. 16

OR

b) Given is the following information : 16

i) Profit of product A : ₹6 per gross

Profit of product B : ₹5 per gross

ii) Production of products A and B is limited by the capacity of 120 hours per week in polishing and 40 hours in plating.

iii) Production time requirements (hours per gross)

	<i>Product A</i>	<i>Product B</i>
Polishing	3	4
Plating	2	1

[ 2 ]

iv) Production of A and B products can never be in negative terms.

Solve the problem for maximisation of profits through graphic method. 16

2. a) Explain the various steps involved in solving a transportation problem by applying the North-West Corner Rule. 16

OR

b) Three jobs P, Q and R are to be assigned to three machines X, Y and Z. The processing cost for each job-machine combination is shown in the matrix. Determine the allocation that minimises the overall processing cost : 16

		Machines			
		X	Y	Z	
Jobs	P	17	25	31	(Cost in ₹ per unit)
	Q	10	25	16	
	R	12	14	11	

3. a) Define Inventory. What are the advantages and disadvantages of having inventories. 4 + 12

OR

[ 3 ]

b) The demand for a particular item is 18,000 units per year. The holding cost per unit is ₹1.20 per year and the cost of one procurement is ₹400. No shortages are allowed and the replacement rate is instantaneous.

*Determine :*

- i) Optimum order quantity
- ii) Number of orders per year
- iii) Time between orders
- iv) Total cost per year when the cost of one unit is ₹1. 16

4. a) A company has an investment opportunity costing ₹40,000 with the following expected net cash flow after taxes and before depreciation.

<i>Year</i>	<i>Net Cash flow (₹)</i>
1	7,000
2	7,000
3	7,000
4	7,000
5	7,000
6	8,000

- b) Discuss sex-linked genetic disorders in human with examples.
4. a) What is Chromosome abnormality ? Describe chromosomal abnormality in humans with examples from autosomal and sex linked abnormalities. 12

OR

- b) Discuss how human genetic is studied.
5. a) Give a detail account of medicolegal application of human genetics. 12
- OR
- b) With examples describe Prenatal diagnosis and its application in humans.

V-92-0.3

**2016**

Answer *all* questions

1. a) What do you mean by Human Genetics ? Give an elaborate account of aim and scope of Human Genetics. 12

OR

- b) Discuss different branches of Human Genetics.

2. a) Define Meiosis and describe Meiosis in an animal cell with diagrams. 12

OR

- b) Diagrammatically describe the structure and function of DNA.

3. a) Explain Mendel's Laws of inheritance. 12

OR

[ 2 ]

V-UG-Geog(H)-X

3. Elaborate the growth of pole approach in regional development.

OR

Write short notes on :

- a) Land use planning
- b) Economic base theory.

4. Discuss the achievement and failures of Five Year Plan in India.

OR

Explain the impact of new economic reforms on India's economy.

5. Discuss the role of IRDP for regional development.

OR

Give an account of Damodar Valley Corporation Project.

**2016**

Full Marks - 60

Time - 3 Hours

The questions are of equal value

Answer *all* questions

1. What is a region ? Discuss different types of region with example.

OR

Write short notes on :

- a) Metropolitan city region
- b) Regional disparity vs. diversity.

2. Describe the objective, goals and strategies in national planning.

OR

Discuss integrated area development as a strategy for regional development.

- b) Define Split Plot design and give a complete statistical analysis of such design. 12

**2016**

Full Marks - 60

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

V-94-0.1

1. a) Stating clearly the assumptions carry out the analysis of variance for a two-way-model (with one observation per cell). 6
- b) Explain an experimental design. Describe the principles of experimental design. 6

OR

- c) State some applications of analysis of variance with suitable examples explain the difference between variability within classes and variability between classes. 6
- d) Distinguish between fixed effect model and random effect model in the analysis of variance. 6

[ 2 ]

2. a) Give the layout of a completely randomised block design and explain the situations when it is used. Discuss its merits and demerits. 6
- b) Give the complete statistical analysis of completely randomised design. 6

OR

- c) What do you understand by missing plot? Carry out the analysis of an RBD when one observation is missing. 6
- d) Describe Latin Square Design and give a complete analysis of the design. 6
3. a) Explain the factorial method of experimentation and state the situation where it could be used. 6
- b) Give the analysis of degrees of freedom in a factorial experiment with three factors at two levels each in three replications. 6

OR

[ 3 ]

- c) What is a treatment contrast? When are two such contrasts said orthogonal? Show that in  $2^3$  experiment the main effects and interactions are mutually orthogonal. 12
4. a) Explain the principles of confounding in design of experiments. State its advantages and disadvantages, how disadvantages can partially overcome. 12

OR

- b) In testing the values of fertilizers N, P and K each at two levels, eight pairs of blocks of 4 plots are used. The treatments (N, P and NPK) are put in one block. What should be the composition of other block for completely confounding the second order interaction. Give the analysis of variance table for this confounded factorial design. 12
5. a) Describe the layout of a  $2^3$  experiment where all the interactions are partially confounded. In such a case indicate degrees of freedoms and sum of squares for all the components of treatments. 12

OR

- v) Transition elements are usually paramagnetic in nature.

OR

- b) What are lanthanides ? Discuss ion exchange method of separation of lanthanides. 1 + 4
- c) Give an account of the oxidation states of lanthanides. 3
- d) Why are 'd' block elements called as transition elements ? 2
- 6 a) What is binding energy ? How it is related to mass defect ? Explain. 4
- b) Write notes on the following :
- i) Carbon dating. 3
- ii) Artificial radioactivity. 3
- OR
- c) Discuss the liquid drop model of nucleus. 5
- d) Write notes on the following :
- i) Nuclear fission 3
- ii) Packing fraction. 2

**2016**

Full Marks - 60

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Explain the origin of magnetism. Write the experimental determination of magnetic susceptibility by Gouy's method. 3 + 5½
- b) Calculate the magnetic moment of the complex  $[\text{Co}(\text{NH}_3)_6]\text{Cl}_3$  using spin only formula. 1½
- OR
- c) Describe the electronic spectra of  $[\text{Tl}(\text{H}_2\text{O})_6]^{3+}$ . 5
- d) What are the relaxations made as to the d-d transition rule in order to apply it to metal complexes ? 5
2. a) Discuss the structure and role of haemoglobin in maintaining the physiological pH and transport of  $\text{CO}_2$  from the tissue to lungs. 5

[ 2 ]

b) Discuss the role of Na and K as ion pumps. 5

OR

c) Write a note on myoglobin. 5

d) Explain the role of redox potentials in extraction of metals. 5

3. a) Define organo-metallic compounds. How are they different from normal co-ordination compounds ? Explain with examples. 1 + 3

b) Discuss the preparation and properties of organometallic compounds of tin. 6

OR

c) Give the classification of organometallic compounds based on the electronegativities of the metal atom. 4

d) Outline the general methods of synthesis of organozinc compounds. Write two important chemical reactions of these compounds. 3+3

4. a) What is meant by back bonding ? How this contact help to explain the bonding in metal carbonyls ? Discuss with example. 2 + 5

[ 3 ]

b) Predict and explain whether the following metal carbonyls obey the EAN rule or not. 3

i)  $V(CO)_6$

ii)  $Mn_2(CO)_{10}$

OR

c) Give an account of the preparation and structure of 4 + 4

i)  $Fe(CO)_5$

ii)  $Cr(CO)_6$

d) How vibrational spectra helps to understand bonding in metal carbonyls ? Explain. 2

5. a) Explain the following : 2 × 5

i)  $CO^{3+}$  is more stable than  $CO^{2+}$ .

ii)  $Zn^{2+}$  salts are white while  $Cu^{2+}$  salts are blue.

iii) Transition elements show variable oxidation states. Explain with an example.

iv) Transition elements usually form coloured compounds.

c) Write the Output : 2

```
class Demo
{
    public static void main (string args [ ])
    {
        int x= 9, y, z ;
        y = ++x ;
        z = y++ ;
        system.out.print ("X="+x+"\tY="+y+"\tZ="+z);
    }
}
```

OR

- a) Write a note on all the twelve unique features in JAVA in brief. 6
- b) Write a program on JAVA to check whether a number inputted is PALINDROME number or not 4
- c) What is JVM ? 2

**2016**

Full Marks - 60

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Briefly discuss the concepts of Multiplexing and its Types. 6
- b) Define transmission modes. Write down its Type in brief. 4
- c) Differentiate Analog Data from Digital Data. 2

OR

- a) Briefly discuss the concepts of Line Coding and its types with suitable examples. 6
- b) What do you mean by impairments in Transmission ? Write down its Types in brief. 6
- c) Differentiate Digital Signal from Analog Signal. 2

[ 2 ]

2. a) What do you mean by errors in networking concept ? Write a note on its types with examples. 6
- b) Briefly discuss about Telephone Network. 4
- c) Differentiate Guided Media from Unguided Media. 2

OR

- a) Write a detailed note on ARQ and its Types. 6
  - b) Briefly discuss about circuit switching with suitable examples. 4
  - c) Differentiate Error Correction from Error Detection. 2
3. a) Write a note on Ethernet and its Types in details. 6
  - b) Write note on addresses in TCP/IP in details 4
  - c) Differentiate CSMA/CA from CSMA/CD. 2

OR

- a) Write a note on Congestion Control in details. 6

[ 3 ]

- b) Write a note on Routing in details. 4
  - c) Differentiate Connection-oriented Protocol from Connectionless Protocol. 2
4. a) Compare and Contrast Symmetric Key Cryptography with Aymmetric Key Cryptography. 6
  - b) Write a note on Attacks on Digital Signature in details. 4
  - c) Differentiate Decryption from Encryption. 2

OR

- a) Write a note on Techniques of User Authentication in brief. 6
  - b) Write a note on DES structure in details 4
  - c) Differentiate Cipher Text from Plain Text. 2
5. a) Write a note on Operators in JAVA. 6
  - b) Write a program on JAVA to check whether a number inputted is ARMSTRONG number or not. 4

Answer *all* questions

*Give labelled diagrams wherever necessary.*

1. Give an account of the energy flow in an Ecosystem. 20

OR

Write notes on any *two* of the following : 10 × 2

- a) Foodchain
- b) Ecological pyramids
- c) Hydrological cycle.

2. Discuss the causes, effects and control measures of Water Pollution. 20

OR

[ 2 ]

Write notes on any *two* of the following : 10 × 2

- a) Acid rain
- b) Cyclone
- c) Solid Waste Management.

3. Discuss briefly the different Waterborne and Airborne diseases. 20

OR

Write notes on any *two* of the following : 10 × 2

- a) Natality
- b) population density
- c) Carrying capacity.

4. Give an account of the various non-renewable resources. 20

OR

Write notes on any *two* of the following : 10 × 2

- a) Soil conservation
- b) Social forestry
- c) Management and conservation of wild life.

[ 3 ]

5. Discuss briefly the Air act and water Act. 20

OR

Write notes on any *two* of the following : 10 × 2

- a) State Pollution Control Board
- b) Ex-situ conservation
- c) Wild Life Protection Act.

V-99-3.5

□□

[ 2 ]

3. a) What do you understand by the term "leadership" ? Enumerate its important characteristics. 4 + 12

OR

- b) Explain Social learning theory of personality ? 16

4. a) Define the term stress. Bring out the impact of stress on performance and satisfaction. 4+12

OR

- b) Can organisations prevent resistance to change ? If so how ? 10 + 6

5. a) What do you mean by Quality circle ? State its advantages. 8 + 8

OR

- b) Describe the determinants of group behaviour. 16

**2016**

Full Marks - 80

Time - 3 Hours

2016

Full Marks - 40

Time - 3 Hours

The figures in the right-hand margin indicate marks  
Answer **all** questions from any **one** of the following  
groups

**GROUP-A**

(FM)

1. a) "Finance function is closely related to its other  
functions" – Discuss. 13

OR

- b) Assuming wealth maximisation to be the  
objective of financial management, show how the  
financing, investment and dividend decisions of  
a company can help to attain this objective. 13

2. a) Following are the data on a capital project 'CP'  
being evaluated by the management of K. Ltd. :

Annual cost saving	₹40,000.
Useful Life	4 years
IRR	15%
Profitability Index	1.064
Salvage value	Nil

[ 2 ]

Find : NPV, Cost of Capital, Cost of Project, Payback Period, considering the following table of discount factor only : 14

Discount factor	15%	14%	13%	12%
1st year	0.869	0.877	0.885	0.893
2nd year	0.756	0.769	0.783	0.797
3rd year	0.658	0.675	0.693	0.712
4th year	0.572	0.592	0.613	0.636
	2.855	2.913	2.974	3.038

OR

- b) Under what Circumstances may NPV and IRR give conflicting recommendations ? Which criteria should be followed in such circumstances and why ? 14
3. a) Distinguish between operating leverage and financial leverage. Do you think that they are related to Capital Structure ? 13

OR

- b) The following items have been extracted from the 'Liabilities' side of the Balance sheet of a company as on 31st December 2015. :

*Paidup capital :*

50,000 Equity share of ₹10 each ₹5,00,000

Reserves and surplus ₹7,00,000

[ 3 ]

*Loans :*

17% non-convertible debentures ₹2,00,000

16% institutional loans ₹6,00,000

Other information about the company as relevant given below :

Year ended 31st Dec	Dividend Per share (₹)	Earnings Per share (₹)	Average Market price (₹)
2015	5.00	9.00	60.00
2014	4.00	7.50	50.00
2013	5.00	6.00	40.00

Calculate Weighted Average Cost of Capital using Book Values as weights and Earning/price (E/P) ratio as the basis of cost of equity. Assume tax rate 50%. 13

### GROUP-B (ASM)

1. a) Justify advertising is the vital tool of marketing. 6
- b) Discuss the economic and social effects of advertising specially in the context of indian scenario. 7

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value

Answer *all* questions

1. a) State and explain different sense of the word 'meaning'.

OR

- b) What is ambiguity ? Explain different types of ambiguity.

2. Explain briefly :

- a) Definition by equivalent words.

- b) Ostensive definition.

OR

What is concept ? Are all concepts based on sense-experience ?

V-227

Time - 3 hours

The questions are of equal value

Answer *all* questions

5. a) Define Validity. Discuss different types of validity with suitable examples. How validity is related to reliability ?

OR

- b) A Mathematics Professor has given a test of multiplication to 25 students in a class. Then he induced a state of Anxiety among them and the achievement test was administered. The data are as under :

<i>Initial Test Data</i>		<i>Final Test Data</i>	
Mean	72	Mean	70
S.D	5.69	S.D	4.83

The coefficient of correlation between the initial and final test scores is 0.87 ( $r = 0.87$ ). Find out whether there is a significant difference between two sets of scores ? Did the induction of Anxiety affect the multiplication ability of the students adversely ?

1. a) What is frequency distribution ? How can you organize data in the form of a frequency distribution ?

OR

- b) Calculate Mean, Median and Mode from the following distribution:

<u>SCORES</u>	<u>FREQUENCY(f)</u>
55-59	2
50-54	3
45-49	4
40-44	6
35-39	9
30-34	11
25-29	8
20-24	4
15-19	2
10-14	1
	N = 50

[ 2 ]

2. a) Define "Variability". Discuss different measures of variability with suitable examples.

OR

- b) Find out the Percentile Rank (PR) of the score 68 by direct method from the following distribution.

<u>SCORES</u>	<u>FREQUENCY(f)</u>
80-84	1
75-79	2
70-74	3
65-69	4
60-64	10
55-59	5
50-54	2
45-49	2
40-44	1
	<hr/>
	N = 30

3. a) What is a Normal Probability Curve? Discuss different properties of Normal Probability Curve.

OR

[ 3 ]

- b) Find out the product moment correlation coefficient from the following two sets of scores :

<i>Subjects</i>	<i>Scores in Test-X</i>	<i>Scores in Test-Y</i>
A	35	69
B	39	72
C	40	71
D	32	60
E	31	73
F	40	74
G	28	64

4. a) A coin was tossed in the air 100 times and the results of these 100 throws indicated 45 Heads and 55 Tails. Using Chi-square Test, find out whether these results are better than mere "Chance".

OR

- b) What is Sampling? Discuss different types of sampling techniques with suitable examples.

**2016**

Answer *all* questions

**Group-A**

1. Write a short note on Utilitarianism. 7½

OR

What is the main theme of Pride and Prejudice ?

2. What are the salient features of a dramatic monologue? 7½

OR

Write the central idea of the poem 'Fra Lippo Lippi'.

3. What is your idea of Mr. Rochester? 7½

OR

Comment on Bertha Mason's madness.

[ 2 ]

4. How does Dickens raise his voice against certain characteristics of Victorian Society ? 7½

OR

Do you agree with the view that *Hard Times* is a "frontal attack upon the ethics of Capitalism" ?

**Group-B**

5. 'All Jane Austen's work is transfused with the spirit of classicism in the highest form, in its most essential quality'. Analyse *Pride and Prejudice* in the light of this statement. 12½

OR

Give a character-sketch of Elizabeth.

6. '*Jane Eyre* best shows blending of realism with wish-fulfilment'. Elucidate this observation. 12½

OR

Discuss the relationship between writer and society.

[ 3 ]

7. Give the significance of the title of the novel *Hard Times*. 12½

OR

*Hard Times* is a scathing attack on utilitarian philosophy. Explain.

8. Critically appreciate Tennyson's "Ulysses". 12½

OR

Assess Browning's "My Last Duchess" as a dramatic monologue.

V-135-0.5

Full Marks - 80

Time - 3 hours

The figures in the right-hand margin indicate marks

Answer *five* questions including Q.No.1  
which is compulsory

**Section-A**

1. Answer any *four* of the following : 7½×4
- a) Write a brief note on Indian Feudalism.
  - b) Discuss the nature and impact of the Arab Conquest of Sind.
  - c) Assess the consequences of the invasion of Md. Shahabuddin of Ghur.
  - d) Examine the proliferation of caste in India during CE 750-1206.
  - e) Give an account of the status of landlords and peasants in medieval India.

[ 2 ]

- f) Discuss the condition of maritime trade in medieval India.
- g) What were the main features of the medieval Bhakti Cult ?
- h) Review the Islamic intellectual tradition in early medieval India.

**Section-B**

- 2. Discuss the important sources of information for the study of early medieval India. 12½
- 3. What were the causes and results of the tripartite struggle for supremacy among the Palas, the Pratiharas and the Rashtrakutas ? 12½
- 4. Discuss the factors responsible for agricultural expansion in early medieval India. 12½
- 5. Analyse the main features of inter-regional trade in medieval India. 12½

[ 3 ]

- 6. Write a note on the general pattern of urbanization during Post-Gupta period. 12½
- 7. Write an essay on the rise of Tantrism in early medieval India. 12½
- 8. Discuss the main features of temple architecture in Northern India. 12½

V-137-0.5

**Group-B**

2. State and explain first order necessary and second order sufficient condition of utility maximisation. 12½
3. Formulate Lancaster's attributes of new demand theory. 12½
4. Explain how Hicks has reformulated the doctrine of Consumer's surplus. 12½
5. Formulate Producer's equilibrium in terms of isoquants and Iso-Costline. 12½
6. Explain Cobb-Douglas production function. 12½
7. 'U' shape of SAC is more pronounced. Elucidate. 12½
8. 'LAC is an envelope Curve'. Explain. 12½

Answer *all* questions

- c) Moving of the earth Brings harms and fears,  
 Men reckon what it did and meant,  
 But trepidation of the spheres,  
 Though greater far, is innocent.

OR

Love, all alike, no season knows, nor clime,  
 Nor hours, days, months, which are  
 the rags of time

1. Fill in the blanks : 1 × 7
- a) 'An Essay of Dramatic Poesy' was written by\_\_\_\_\_ .
  - b) The Restoration period began in\_\_\_\_\_ .
  - c) Richard Steele's \_\_\_\_\_ is a Sentimental Comedy.
  - d) Dr. Johnson's *Preface to Shakespeare* is a\_\_\_\_\_ .
  - e) 'The History of Tom Jones' was written by\_\_\_\_\_ .
  - f) Richardson's 'Pamela' is an \_\_\_\_\_ novel.
  - g) \_\_\_\_\_ is an example of Gothic Novel.
2. Write short notes on any *four* of the following: 4×4
- a) Periodical Essays in 18<sup>th</sup> Century England.
  - b) Restoration Comedy

[ 2 ]

- c) Neoclassicism
  - d) Roles of Clubs and Coffeehouses in 18<sup>th</sup> Century England
  - e) Poetic Diction in the Augustan Age.
  - f) Swift's Contribution to Satire.
3. Comment on the Fool's character and function in "King Lear". 14

OR

Sketch the development in Lear's character from an egotistical monarch to a Loving human Soul.

4. What features of Shakespearean Comedy do you find in 'Twelfth Night' ? 14

OR

Make an assessment of Olivia as a Shakespearean heroine.

5. What do you mean by Metaphysical Conceits ? Discuss with references to the poems of John Donne which you have read. 14

OR

[ 3 ]

Give a critical appreciation of 'The Collar' or 'The Retreat'.

6. Annotate the following : 3 × 5

- a) You do me wrong to take me out of the grave,  
Thou art a Soul in bliss ; but I am bound upon a  
wheel of fire, that mine own tears Do scald like  
molten lead.

OR

Have more than thou showest  
Speak less than thou knowest,  
Lend less than thou owest  
Ride more than thou goest'.

- b) Fear not, Cesario, take thy fortunes up ;  
Be that thou Know'st thou art, and then thou art  
As great as that thou fear'st.

OR

A murd'rous guilt shows not itself more soon  
Than love that would seem hid : love's night  
is noon.

[ 2 ]

b) Differentiate between population geography and demography.

4. a) What is fertility ? Discuss the determinants of fertility.

OR

b) Write shortnotes on :

i) Mortality

ii) Sex Structure.

5. a) Account for the origin and growth of rural settlement.

Or

b) Give an account of the Functional Classification of cities.

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value

Answer *all* questions

1. Following balances appeared in the books of a Company on 1st April 2015

12% Debentures	₹8,00,000
12% Debentures Sinking Fund	₹6,00,000
12% Debentures Sinking Fund Investments	₹6,00,000

(Represented by 10% Government Bonds secured of ₹7,20,000)

Annual Contribution to sinking fund was ₹1,28,000 made on 31st March every year. On 31st March 2016 balance at bank was ₹4,00,000 before receipt of interest. The company sold the investments at 80% and debentures were paid up (repaid)

[ 2 ]

You are required to prepare

- i) 12% Debentures A/c
- ii) Debenture Sinking Fund A/c
- iii) Debenture Sinking Fund Investment A/c
- iv) Bank A/c..

OR

- a) Pass Journal Entries for the following transactions :
  - i) Issue of debentures at a discount and redeemable at par
  - ii) Issue of debentures at a premium and redeemable at par
  - iii) Issue of debentures at par and redeemable at premium
  - iv) Issue of debentures at discount and redeemable at premium.

[ 3 ]

- b) What do you mean by Capital Redemption Reserve Account ? How is it Created ? How can it be utilised ?

2. Prepare a form of Balance Sheet of a Company as per Companies Act 2013, taking imaginary figures.

Or

Write notes on the following :

- a) Miscellaneous Expenditure to the extent not written of.
- b) Requirements of True and Fair.
- c) Contingent liabilities.

3. Explain pooling interests method of amalgamation.

Or

The Balance Sheet of a private company stood as follows on 31-3-2016

## Balance Sheet

Liabilities	₹	Assets	₹
19,000 shares of ₹100 each	19,00,000	Land/Buildings	1,00,000
Creditors	1,00,000	Machinery	2,60,000
Debentures	1,00,000	Furniture	20,000
		Stock	3,70,000
		Debtors	1,80,000
		Goodwill	2,00,000
		Profit & loss A/c	9,70,000
	21,00,000		21,00,000

The company is to be reconstructed as follows :

- i) Share of ₹100 are to be reduced to an equal number of fully paid shares of ₹40 each.
- ii) To issue 1,000 new shares of ₹40 each as fully paid up to debenture holders in full settlement.
- iii) The amount available is to be utilised in writing off the goodwill and Profit & Loss A/c and the balance in writing down the value of machinery.
- iv) Authorised Capital of the Company is 20,000 shares of ₹100 each.

Give the necessary journal entries. Prepare Capital Reduction A/c and Reconstructed Balance Sheet.

4. Write notes on the following :

- a) Liquidation Financial statement of account
- b) Blist of Contributories.

OR

The Share Capital of XY Ltd. Consists of 10,000 Equity Shares of ₹100 each, ₹50 paid and 2,500 8% Cumulative preference shares of ₹100 each fully paid. The Balance sheet of XY Ltd ; shows assets (exclusive of goodwill) ₹15,00,000 ; Liabilities ₹4,00,000 ; Reserves ₹3,50,000 and paid up capital ₹7,50,000 ; The profits before tax of XY Ltd. for the previous five years were ₹1,00,000, ₹3,00,000, ₹500, ₹2,00,000 and ₹4,45,000. Rate of tax is 50%.

The assets and liabilities are accepted at Balance Sheet figures and there are no arrears of dividend on preference shares which in similar business yield a return of 6% under current market conditions. The normal yield on capital employed in similar business is 10% and goodwill is valued at five times the purchase price of the super profit.

[ 6 ]

You are asked to value the preference shares and the equity shares in XY Ltd. Assume tax rate is 50%.

5. From the Balance Sheets given below, you are required to prepare Funds Flow Statement :

Balance Sheets as on 31st March. (₹ in lakhs)

Liabilities	Previous year (₹)	Current year (₹)	Assets	Previous year (₹)	Current year (₹)
Equity share capital	8.00	12.00	Free hold Land & Building	5.54	11.32
Security Premium	0.80	1.20	Plant & Machinery	3.56	5.13
General Reserve	0.60	0.90	Furniture/Fitting	0.24	0.15
Profit/Loss A/c	1.95	2.08	Stock	2.21	2.60
5% Debentures	--	2.60	Debtors	3.65	3.91
Corporate tax	0.98	1.09	Bank	0.48	0.40
Creditors	3.35	3.64			
	15.68	23.51		15.68	23.51

Depreciation written off during the year :

Planted Machinery ₹1.28 lakhs

Furniture and Fittings ₹0.04 lakhs

OR

[ 7 ]

Write notes on the following :

- Cost of control
- Treatment of unrealised profit
- Minority Interest.

Answer *all* questions

- f) Prove the following relation using gamma or beta function.

$$\int_0^1 \frac{x^2 dx}{(1-x^4)^{1/2}} \times \int_0^1 \frac{dx}{(1-x^4)^{1/2}} = \frac{\pi}{4\sqrt{2}} \quad 6$$

5. a) Describe Michelson-Morely experiment with necessary theory and write down the conclusion drawn from it. 11 + 4

OR

- b) Derive Einstein's mass-energy relation. 10
- c) Write energy momentum four vectors. 5

V-236-0.15

1. a) Show that :

$$\vec{A} \times (\vec{B} \times \vec{C}) + \vec{B} \times (\vec{C} \times \vec{A}) + \vec{C} \times (\vec{A} \times \vec{B}) = 0. \quad 5$$

- b) Calculate grad  $\left(\frac{1}{r}\right)$  3

- c) Find the vector perpendicular to surface  $x^2 + 2y^2 + 3zx = 4$  at point (1, 2, 0). 4

OR

- d) Derive Gauss divergence theorem. 5
- e) Discuss the physical significance of gradient. 4
- f) Find Curl  $\vec{A}$  where  $\vec{A} = \vec{r} f(r)$  3

[ 2 ]

2. a) State and prove Cauchy-Riemann conditions. 10
- b) Prove that  $x^2 + iy^3$  is not analytic any where in the z-plane 5

Or

- c) State and prove Laurent series expansion for an analytic function. 10
- d) Expand  $\frac{e^{2z}}{(z-1)^3}$  around  $z=1$ . 5
3. a) Obtain the series solution of Hermite's differential equation. 10
- b) Show that  $H_n(x) = (-1)^n e^{x^2} \frac{d^n}{dx^n} (e^{-x^2})$  5

OR

- c) Show that Legendre Polynomial  $P_n(x)$  is the coefficient of  $h^n$  in the binomial expansion of  $(1 - 2xh + h^2)^{-1/2}$ . 8

[ 3 ]

- d) Find the value of  $P_3(x)$ . 3
- e) Prove the following relation :  
 $(n+1)P_{n+1}^{(x)} = (2n+1)xP_n^{(x)} - nP_{n-1}^{(x)}$  4

4. a) Expand  $f(x)$  using Fourier Series in the interval  $(-2, 2)$  if  $f(x) = 0$  for  $-2 \leq x \leq 0$  and  $f(x) = 1$  for  $0 \leq x \leq 2$ . 8
- b) Find Fourier transform of Gaussian distribution function  $f(x) = Ae^{-\beta x^2}$  where  $A$  and  $\beta$  are constants. 4
- c) Show that Dirac delta function in coordinate space has a constant value in momentum space. 3

OR

- d) Find Laplace transform  $\{t^n\}$ . 4
- e) Find the value of  $\sqrt{\left[\frac{1}{2}\right]}$ . 5

2016

Answer *all* questions

5. a) Write notes on the following :
- i) Claisen rearrangement. 4
  - ii) Reaction of phenol with benzene diazonium chloride 3
  - iii) Synthesis of epoxides. 3

OR

- b) Write the mechanism of Reimer-Tiemann reaction. 4
- c) Complete the following reactions. 2 + 2
- i) Glycerol  $\xrightarrow{\text{HNO}_3}$
  - ii) Glycerol  $\xrightarrow{\text{PCl}_5}$
- d) Why is phenol acidic? 2
6. a) Discuss the mechanism of the following reactions :
- i) Benzoin Condensation 4
  - ii) Clemenson's reduction 3
  - iii) Baeyer-villager oxidation of Ketones. 3

OR

- b) Write notes on the following :
- i) Aldol Condensation 3½
  - ii) Perkin reaction. 3½
- c) How does acetaldehyde react with phenyl hydrazine 3

1. a) Thermodynamically derive an expression relating the elevation of boiling point of a solution and molecular mass of the non-volatile and non-electrolytic solute dissolved in it. 7
- b) 10g of a non-volatile solute dissolved in benzene raises the boiling point by 1°C. Calculate the molecular mass of the solute. ( $K_b$  for benzene 2.53 K.mol<sup>-1</sup>). 3

OR

- c) Write a note on Raoult's law. 4
- d) What is colligative property? Prove that lowering of vapour pressure is a colligative property. 1 + 2
- e) Give an account of abnormal molecular mass. 3

[ 2 ]

2. a) Explain extensive and intensive properties of a system with two examples of each. 4
- b) Derive an expression for the work done in an isothermal reversible expansion of an ideal gas from volume  $V_1$  to  $V_2$ . 6

OR

- c) What is Joule-Thomson effect ? Derive an expression for the Joule Thomson co-efficient of an ideal gas.  $1\frac{1}{2} + 4\frac{1}{2}$
- d) Define bond dissociation energy. Calculate the C–C bond energy, given that  
heat of sublimation of C = 170.9 Kcal  
heat of dissociation of  $H_2$  = 52.1 Kcal  
C–H bond energy = 99 Kcal  
heat of formation of ethane = 20.39 Kcal. 1+3
3. a) Write short notes on any *two* of the following: 5+5
- Hydrides of nitrogen
  - Bacterial fixation of nitrogen
  - Interhalogen compounds.

OR

[ 3 ]

- b) Discuss one method of preparation, two chemical properties and the structure of any two of the following compounds.  $(1+2 +2) \times 2$
- i)  $Xe O_2F_2$       (ii)  $Xe F_4$       (iii)  $XeO_4$ .
4. a) Write the IUPAC name of the following complex compounds. 4
- i)  $[Co(NH_3)_6] Cl_3$       (ii)  $[Cr(en)_3] Cl_3$   
iii)  $[Cr(H_2O)_4Cl_2]$       (iv)  $K[PtCl_3(NH_3)]$
- b) Calculate the co-ordination number of 2
- Ni in  $[Ni(CO)_4]$
  - Fe in  $K_4[Fe(CN)_6]$
- c) Discuss the geometrical isomerism in complex compounds with co-ordination number six. 4

OR

- d) Write the postulates of Werner's theory of co-ordination compounds. Explain the structure of  $[Co(NH_3)_4] Cl_3$  on the basis of this theory. 4 + 3
- e) What do you mean by effective atomic number of a central metal ion ? Calculate the effective atomic number of the metal 'Fe' in  $[Fe(CN)_6]^{3-}$  ion. 3

[ 2 ]

III-UG-Bot(H)-V (Back)

3. Give an account of Genetic engineering and Recombinant DNA.

OR

Write notes on the following :

- a) Gene Bank
- b) Protoplast fusion.

4. Describe different methods of plant breeding.

OR

Write notes on the following :

- a) Hybridization in self pollinated crops
- b) Hybrid vigour.

5. Give an account of mean, median measurement of Dispersion with examples.

OR

Write notes on the following :

- a) Standard deviation
- b) Random sampling.

**2016**

Full Marks - 60

Time - 3 Hours

The questions are of equal value

Answer **all** questions

*Give labelled diagrams wherever necessary.*

1. Give an account of the Mendel's laws of inheritance.

OR

Write notes on the following :

- a) Crossing over
- b) Epistasis.

2. Describe the different types of gene mutation.

OR

Write notes on the following :

- a) Down's syndrome
- b) Chromosomal aberrations.

[ 2 ]

3. Describe principal anatomical structures of sphenodon and discuss its affinities.

OR

Write notes on any *two* of the following :

- Diapsida
  - Neoteny
  - Snake venom.
4. Give an account of the flight adaptations in birds.

OR

Write notes on any *two* of the following :

- Respiratory system in Pigeon
  - Prototheria
  - Heart of Rabbit.
5. Give a comparative account of Aortic arches in Vertebrates.

OR

Write notes on any *two* of the following :

- Metanephros
- Brain of Mammal
- Heart of Fishes and Amphibia.

III-UG-Zool(H)-V (Back)

2016

Full Marks - 60

Time - 3 Hours

The questions are of equal value

Answer *all* questions

*Draw suitable diagrams wherever necessary.*

1. Describe the digestive system and feeding mechanism of Amphioxus.

OR

Write notes on any *two* of the following :

- External features of Herdmania
  - Development in Balanoglossus
  - Structural peculiarities of Protochordates.
2. Give an account of the structural peculiarities and affinities of cyclostomes.

OR

Write notes on any *two* of the following :

- Heart of Scoliodon
- General characters of Dipnoi
- Accessory respiratory organs of fishes.

2016

Full Marks - 60

Time - 3 Hours

The figures in the right-hand margin indicate marks

Answer *all* questions

1. a) Draw a flow chart to find out the greatest among 10 input numbers. 6
- b) Differentiate between an algorithm and a flow chart. Write an algorithm to find out the first ten Fibonacci numbers. 6

OR

Write short notes on the following : 12

- a) GIGO
- b) Top-down Vs. Bottom-up Design
- c) Modular Design Vs. Structured Programming
- d) Algorithm Vs. Flowchart.

[ 2 ]

2. a) What are the different operators available in C language? Explain with examples. 12

OR

- b) What are the different decision control and branching statements available in C? Explain about each of them with suitable examples. 12
3. a) Write a program in C to find out the factorial of a number using Recursion. 6
- b) What is meant by function? What are the different ways of passing parameters to the function? Explain with suitable example. 6

OR

- c) What is the difference between call-by-value and call-by-reference? Write a program in C to find out the largest among three numbers using pointer. 6
- d) Explain the concept pointer to pointers with a suitable example. 6
4. a) Differentiate between Single, Double and Circular Linked list with their advantages and disadvantages? Write an algorithm in C to insert an element into a single linked list. 12

OR

[ 3 ]

Write short notes on the following : 12

- a) Polynomials using list  
b) Abstract Data Type  
c) Linear Vs. Binary Search  
d) Representation of Sparse Matrix.

5. a) Convert the following infix expression into postfix form by using a stack.

$$A * B - (C / D - E) \wedge 5 \quad 6$$

- b) What is a stack? How does it differ from a queue? Explain PUSH operation in a stack with example. 6

OR

- c) Draw a binary tree for the following expression and find out its pre-order traversal expressions.  
 $E = (3x - y)(5a + b) - 4a.$  6
- d) Differentiate between queue and circular queue. Write the Insertion algorithm in a queue with example. 6

Answer *five* questions including Q.No.1  
which is compulsory

**Group-A**

1. Answer any *four* of the following :
  - a) Define adiabatic process. Deduce its equation of state. 1 + 5
  - b) Distinguish between reversible and irreversible process. Give examples of both the processes. 3 + 3
  - c)
    - i) What do you mean by isobaric change ? Draw its PV diagram. 2
    - ii) State and write mathematical the law of equipartition of energy
    - iii) Derive mean free path. How does the mean free path varies with density of a gas ? 2

[ 2 ]

- d) What do you mean by a heat engine? Derive its efficiency in terms of quantity of heat. 3 + 3
- e) Derive first Tds equation. 6
- f) Deduce thermodynamical scale of temperature. 6
- g) Write Maxwell Boltzmann formula for distribution of molecular speed and hence obtain the expression for rms speed. 2 + 4
- h) Deduce expressions for critical constants  $v_c$  and  $T_c$ . 3 + 3

### Group-B

2. Describe the construction and working of a Carnot engine. Derive an expression for its efficiency. 7+2
3. Show that the entropy remains constant in a reversible cycle but increases in an irreversible cycle. 9

[ 3 ]

4. Draw T-S diagram for a Carnot's cycle and hence obtain an expression for its efficiency. 3 + 6
5. Give an account of the thermodynamical treatment regarding the cooling due to adiabatic demagnetization. 9
6. Deduce Clausius-Clayperon's equation in the light of first order phase transition. 9
7. Deuce Maxwell's thermodynamic relations. 9
8. What is Brownian motion? Give a brief account of Einstein's theory of Brownian motion. 9

[ 4 ]

- c) Write notes on Cannizzaro's reaction. 6
- d) Why acetic ester fails to give haloform reaction ? 3
7. a) How is diethylmalonate synthesised ?  
How succinic acid is obtained from diethylmalonate ? 6
- b) Write shortnotes on Curtius rearrangement. 3

OR

- c) How 2-butanone and crotonic acid can be synthesised from diethylmalonate. 6
- d) Write on Reformatsky reaction. 3
8. a) Write notes on : 9
- i) Dieckmann reaction
- ii) Hofmann Bromamide Degradation.

OR

- b) Write notes on : 9
- i) Knoevenagel condensation
- ii) Wittig reaction.

Answer *all* questions from both the groups

Give labelled diagrams wherever necessary.

Group-A

1. a) Suggest the reactant for preparing the following from  $\text{CH}_3\text{MgBr}$ . 6
- i)  $\text{CH}_3\text{CH}_2\text{OH}$
- ii)  $\text{CH}_3\text{-}\overset{\text{S}}{\parallel}\text{C}\text{-SH}$
- iii)  $\text{CH}_3\text{-}\overset{\text{O}}{\parallel}\text{C}\text{-OH}$
- iv)  $\text{CH}_3\text{D}$

OR

- b) Identify A, B, C in the sequence of the following reaction : 4

[ 2 ]

- c) Predict the product 2

- 2 a) Explain why are vinylic and arylhalides unreactive in SN<sub>1</sub> or SN<sub>2</sub> reactions ? 4  
b) Explain why HO – CH<sub>2</sub> – CH<sub>2</sub> – Br does not form Grignard reagent ? 2

OR

- c) Neopentyl halides do not undergo nucleophilic substitution reactions, Explain ? 4  
d) Are SN<sub>2</sub> reactions stereospecific or Stereoselective ? 2
3. a) Discuss Pinacol-Pinacolone rearrangement with mechanism. 4  
b) Why phenol is acidic ? 2

OR

- c) What is Lucas reagent ? How it is used to distinguish 1<sup>o</sup>, 2<sup>o</sup>, and 3<sup>o</sup> alcohol ? 4  
d) 
$$\begin{array}{c} \text{CH}_2 - \text{OH} \\ | \\ \text{CH}_2 - \text{OH} \end{array} \xrightarrow[\text{HIO}_4]{\text{Oxd}^n}$$
 2

[ 3 ]

4. a) Discuss Reimer-Tiemann reaction with mechanism. 4  
b) Why aniline is less basic than ethyl amine ? 2

OR

- c) Discuss Claisen condensation with mechanism 4  
d) Why acetoacetic ester fails to give haloform reaction. 2

**Group-B**

5. a) Dialkyl ethers are most easily cleaved by HI and less easily by HBr or HCl. Explain 6  
b) Benzoin condensation is not possible with aliphatic aldehydes. Explain. 3

OR

- c) Write notes on Wolf-Kishner Reduction. 6  
d) Oxime of benzaldehyde does not give normal Beckmann rearrangement product. Explain. 3
6. a) Write a note on Bayer-Villiger oxidation. 6  
b) Explain why in Perkin reaction, one should use the anhydride and the sodium salt of the same acid as reagents. 3

OR

**Group-B**

2. Briefly explain the concept of centres of origin with reference to Vavilov's work. 9
3. Describe the origin, morphology, processing and uses of rice. 9
4. Give an account of the morphology, processing, uses and health hazards of tobacco. 9
5. Explain the extraction methods of essential oils. 9
6. Explain the tapping, processing and uses of para-rubber. 9
7. Describe the morphology, propagation and uses of potato. 9
8. Give an account of the morphology, processing and uses of tea. 9

Answer *five* questions including Q.No.1  
which is compulsory

**Group-A**

1. Answer on any *eight* of the following :  $3 \times 8$
- a) What are the Advantages of DBMS ?
  - b) Write a note on Database Actors.
  - c) Differentiate between Secondary Key and Candidate Key.
  - d) Discuss Division and Join operation with example.
  - e) What is meant by view ?
  - f) Write a note on Schema with example.
  - g) What do you mean by UML diagrams ?

[ 2 ]

- h) What is meant by Hashing ?
- i) Compare and contrast UNF with 4NF.
- j) What is Indexing ?

**Group-B**

- 2. a) Compare and Contrast ER Model with EER Model. 3
- b) Write a note on Database User. 3
- c) Write a note on Database Architecture. 3
- 3. a) Differentiate Weak Entity from Strong Entity. 3
- b) What is ER Model? Describe the symbols used for ER modelling in details. 3
- c) Write a note on disadvantages of DBMS. 3
- 4. a) Differentiate Relational Calculus from Relational Algebra. 3
- b) Write a note on Relational Algebra operations with Examples. 2
- c) Discuss Key and its types with examples. 3

[ 3 ]

- 5. a) Differentiate Project Operation from Select Operation. 3
- b) Differentiate Tuples from Attributes. 3
- c) What do you mean by Attributes and Domains ? Justify your answer with suitable example. 3
- 6. a) With suitable example, discuss ER to Relational Mapping. 3
- b) Write a note on DDL with example. 3
- c) Write a note on Query with example. 3
- 7. a) With a suitable example, discuss 1NF, 2NF and 3NF. 6
- b) Compare and Contrast 3NF with BCNF. 3
- 8. a) Write a note on Disk Structure. 3
- b) Write a note on File structure. 3
- c) Write a note on Hashing. 3

Answer **all** questions selecting either {(a), (b)} or  
{(c), (d)} from each question  
*Symbols used have their usual meaning.*

5. a) Let  $K$  be a subgroup of  $G$  and  $N$  is a normal subgroup of  $G$ . Prove that  $K/K \cap N$  is isomorphic to  $\frac{KN}{N}$ . 8

b) Let  $\phi$  be a homomorphism from a group  $G$  to a group  $\bar{G}$  and  $g \in G$ . Prove that 4 + 4

i) If  $|g|$  is finite then  $|\phi(g)|$  divides  $|g|$

ii)  $\phi(a) = \phi(b)$  iff  $a \ker \phi = b \ker \phi$  for  $a, b \in G$

Or

c) Define Kernel of a homomorphism of groups. Suppose  $\phi$  be a group homomorphism from  $G$  to  $\bar{G}$ . Prove that  $\ker \phi$  is a normal subgroup of  $G$ . 8

d) Let  $\phi$  be a homomorphism from a group

i) Prove that if  $\bar{K}$  is a normal subgroup of  $\bar{G}$  then  $\phi^{-1}(\bar{K}) = \{K \in G \mid \phi(K) \in \bar{K}\}$  is a normal subgroup of  $G$ . 4

ii) Prove that the mapping  $\phi$  from  $R^*$  to  $R^*$  defined by  $\phi(x) = |x|$  is a homomorphism. Find its Kernel. 4

1. a) i) Prove that centre of a group is a subgroup of  $G$ . 4

ii) Let  $G$  be an abelian group and  $H$  and  $K$  are subgroups of  $G$ . Prove that  $HK$  is a subgroup of  $G$ . 4

b) For any element  $a$  and  $b$  from a group and any integer  $n$  prove that  $(a^{-1}ba)^n = a^{-1}b^n a$ . 8

OR

c) i) Prove that  $U(10)$  is a group.

ii) Prove that in a group  $G$   $(ab)^{-1} = b^{-1}a^{-1}$  for  $a, b \in G$ . 4

d) Suppose  $H$  be a non empty finite subset of a group  $G$ . If  $H$  is closed under multiplication, prove that  $H$  is a subgroup of  $G$ . 8

[ 2 ]

2. a) i) Prove that every subgroup of a cyclic group is cyclic. 4

ii) Let  $G$  be a group and  $a \in G$  Prove that  $\langle a \rangle = \langle a^{-1} \rangle$ . 4

b) Define alternating group of degree  $n$ . Prove that for  $n > 1$   $A_n$  has order  $\frac{n!}{2}$ . 8

OR

c) Let  $G$  be a group and  $a \in G$  if  $a$  has finite order  $n$ , prove that 8

$\langle a \rangle = \{e, a, a^2, \dots, a^{n-1}\}$  and  $a^i = a^j$  iff  $n$  divides  $i - j$

d) Prove that every permutation of a finite set can be written as a cycle or as a product of disjoint cycles. 8

3. a) Let  $H$  be a subgroup of  $G$  and  $a, b \in G$  prove that.

i)  $aH$  is a subgroup of  $G$  iff  $a \in H$ . 4

ii)  $aH = bH$  or  $aH \cap bH = \phi$  4

[ 3 ]

b) State and prove Lagrange's theorem. 8

OR

c) i) Let  $H$  and  $K$  are subgroups of  $G$  and  $g \in G$  show that  $g(H \cap K) = gH \cap gK$ . 4

ii) If  $G$  is a finite group and  $H$  is a subgroup of  $G$  then prove that  $|G : H| = |G| / |H|$ . 4

d) Let  $H$  and  $K$  are two finite subgroups of  $G$  Prove that  $|HK| = \frac{|H| \cdot |K|}{|H \cap K|}$ . 8

4. a) Define external direct product of  $n$  groups. Prove that the external direct product of any finite number of groups is a group. 8

b) If  $N$  and  $M$  are normal subgroups of  $G$  prove that  $NM$  is also a normal subgroup of  $G$  8

OR

c) Prove that factor group of a cyclic group is cyclic. 8

d) Let  $G$  be a finite abelian group and  $p$  be a prime that divides order of  $G$  Prove that  $G$  has an element of order  $p$ . 8

Answer *all* questions

1. a) Fill in the blanks with the right form of modals keeping in mind the meaning given in brackets.. 5
  - i) She \_\_\_\_\_ go for an operation. (certainty)
  - ii) I \_\_\_\_\_ smell something burning. (Awareness)
  - iii) \_\_\_\_\_ you kindly get me a dozen of paper? (Request)
  - iv) I \_\_\_\_\_ never play the flute. (Past ability)
  - v) \_\_\_\_\_ I clean your room? (Offer of help)
- b) Rewrite the following sentence using the correct forms of verbs given in brackets. 5
  - i) The river (smell) when it rains.
  - ii) He (sit) idly while others were playing in the field.

[ 2 ]

- iii) The boys (finish) eating.
- iv) When we reach Simla it (snow) there.
- v) He (pay) a heavy penalty for his crime in future.
- c) Fill in the blanks with suitable preposition. 5
- i) The thief robbed him \_\_\_\_\_ his money.
- ii) He complied \_\_\_\_\_ my request.
- iii) He refrained \_\_\_\_\_ commenting on the situation.
- iv) The bus is bound \_\_\_\_\_ Cuttack..
- v) She is never exposed \_\_\_\_\_ bright light.
- d) i) Write the synonym of the following :  $5 \times \frac{1}{2}$   
Abandon, Brutal, Hazard, Decease, Twist
- ii) Write antonym of the following :  $5 \times \frac{1}{2}$   
Social, Ability, Judge, Sensitive, Beginning

[ 3 ]

- e) Do as directed : 5
- i) The house is on fire (Change the voice)
- ii) Let us go on a picnic. (Add a question tag)
- iii) Time and tide wait for none (Correct the error)
- iv) He was elected captain of the team  
(Change the voice)
- v) He is \_\_\_\_\_ teacher (Use appropriate article)

2. Read the following passage and answer the questions that follow in brief.  $5 \times 2$

The Internet has revolutionized the world like no other technology before it. The Internet, or the Net, as it is better known, has been perceived to be of several dimensions to its users : a medium of inter communication between remote users ; a mechanism to show information, and work collaboratively ; a means of publishing information globally ; and a near-exhaustive repository of information.

[ 4 ]

The Internet is a good example of the synergy of convergence of technologies. While the individual technologies behind the Internet have been around for some time, the explosive growth and penetration of the Net has been achieved only with the convergence of the underlying technologies of mass production of computers ; developments in computer-networking ; the growing availability and declining costs of telecommunication services ; and advancements in data compression and transmission.

*Questions :*

- i) How is Internet perceived by its users.
- ii) Why does the writer call the Internet synergy of convergence of technologies ?
- iii) How has the cost of telecommunication services reduced ?
- iv) How is Internet known to common people ?
- v) What is the most significant aspect of Internet you find in the passage ?

[ 5 ]

3. Write a paragraph on any **one** of the following : 12
  - i) A stitch in time saves nine
  - ii) Journey by train
  - iii) Demonetization.
4. Write a precis of the passage given in Question No.2 and add a title. 12
5. a) Answer any **four** of the following : 5 × 4
  - i) What does Kalam say about his study of aeronautics at the MIT ?
  - ii) What does the writer mean by "Shehnai transcends all musical categories" ?
  - iii) How does Capra appreciate Sanjukta Panigrahi's performance on the stage ?
  - iv) What impresses the Boss most at Shammath's house?

[ 6 ]

- v) What is meant by 'sane society' ? How according to Eric Fromm can a sane society be built ?
- vi) What is the significance of collective art in social life ?

b) Write a critical appreciation of any *one* of the following : 16

- i) Ode on a solitude
- ii) The Darkling Thrush
- iii) The Unknown citizen.

c) Write an annotation of the following with referenceto context 10

Love's not Time's Fool, though rosy lips and cheeks  
Within his bending sickle's compass come ;  
Love alters not with his brief hours and weeks,  
But bears it out even to the egde of doom.

OR

[ 7 ]

"And vital feeling of delight  
Shall rear her form to stately height,  
Her virgin bosom swell ;  
Such thoughts to Lucky I will give....."

V-242-1

**Group-B**

2. Discuss the essential elements of a valid contract. 12½
3. Explain the provisions of law relating to contracts by minors. 12½
4. State and explain the circumstances under which a surety is discharged. 12½
5. Narrate the various modes by which an Agency may be created. 12½
6. When is a seller of the goods deemed to be an unpaid seller? What are the rights against the goods and the buyer personally? 12½
7. "A holder in due course gets a title free from equities". Explain the statement and discuss the various privileges of a holder in due course. 12½
8. "Memorandum of association is a charter of the company". Comment upon the statement and explain the clauses which are included in a memorandum of association of a company. 12½

Answer *all* questions

b) Write synonym of the following words. 5

Abandon, Forbid, Generous, Humility,  
Death, Confess, Heroic, Rigid, Obstinate,  
Wrath.

c) Write short notes on any *four* of the following with suitable examples : 5

i) Modal Auxiliary

ii) Conditional clause

iii) Preposition.

1. a) Write a note on various forms of communication with suitable examples. 20

OR

b) Write a note on the following in about 100 words each : 20

i) Body language

ii) Barriers of Communication.

2. a) Write a note on Oral communication skills. 20

OR

b) Write short notes on the following in about 100 words each : 20

i) Group Discussion

ii) Interview skills.

[ 2 ]

3. a) Design a CV to be submitted to the HR Manager of a firm for the post of an Accounts Assistant. 20

OR

- b) What are the various forms of written communication ? Explain with suitable examples.
4. Write short notes on any **four** of the following in about 50 words each. Give suitable examples.: 4×5
- Syllable division
  - Word stress
  - Intonation
  - Phnetic transcription
  - Vowels
  - International phonetic Alphabet (IPA).
5. a) Do as directed in the brackets 10
- The house was on fire (change the vioce)
  - He was elected manager of the team (change the vioce)

[ 3 ]

- Oil \_\_\_\_ float if you pour it in water  
(Use the correct form of 'Be' verbs)
- The match \_\_\_\_ started before I reached the field  
(Use the correct form of the verb 'have')
- If it rains tomorrow, we (stay) at home.  
(Use the correct form of the verb in bracket)
- The captain with his team (be) going to the field.  
(Use the correct form of the verb in bracket)
- When his temperature went up, a doctor was called.  
(Use a phrasal verbs the word underlined)
- Akbar was the great king.  
(change the sentence into negative without changing the meaning)
- I love to visit my relatives.  
(Use a gerund in place of the underlined word)
- Rama went to \_\_\_\_ hospital to see ailing friend.  
(Fill in the blank with an article)

[ 4 ]

- vi) The boy works hardly.
- vii) No sooner he came the rain was start.
- viii) The plane took up at 5 p.m.
- ix) She is staying in this town for last ten years.
- x0 The teachersaid the earth moved round the sun.

Answer *five* questions including Q.No 1  
which is compulsory

V-171-0.1

**Group-A**

1. Answer any *four* of the following :  $4 \times 6$
- Show that for  $n$  attributes  $A_1, A_2, A_3, \dots, A_n$   
 $(A_1 A_2 A_3 \dots A_n) \geq (A_1) + (A_2) + \dots + (A_n) - (n-1)N$   
where  $N$  is the total numbers of observations.
  - In a series of houses actually invailed by smallpox; 70% is the inhabitants are attacked by 85% have been vaccinated. What is the lowest percentage of the vaccinated that must have been attached ?
  - Explain the difference between population and sample with the help of a physical example.
  - Differentiate between parameter and statistic.

[ 2 ]

- e) Write a short note on 't' distribution and point out its uses.
- f) Two random samples gave the following results.

Sample	size	Sum of observations	Sum of Squares of the deviation from mean
I	10	150	90
II	12	168	108

Test whether the samples come from the same normal population.

- g) Differentiate between small sample test and large sample test.
- h) Give conditions for independence of attributes A, B and C.

### Group-B

2. For a trivariate data with variables  $X_1$ ,  $X_2$  and  $X_3$ , derive the equation of the plane of regression of  $X_1$  on  $X_2$  and  $X_3$ . 9

[ 3 ]

3. Explain the concept of multiple and partial correlation coefficients. Show that in usual notations

$$R_{1.23}^2 = \frac{r_{12}^2 + r_{13}^2 - 2r_{12} r_{23} r_{13}}{1 - r_{23}^2} \leq r_{12}^2. \quad 9$$

4. Define Yule's coefficient of association Y and coefficient of colligation Q and establish the

relationship  $Q = \frac{2y}{1+y^2}$  9

5. Define sampling distribution and standard error. Obtain the standard error of sample variance. 9
6. Explain the meaning of tests of significance based on large samples. Carry out the test of significance for difference of two sample means where samples are taken from two different populations. 9
7. A random sample of 100 articles selected from a batch of 2000 articles shows that the average diameter of the article is 0.354 cm with a standard deviation 0.048 cm. Find 95% confidence interval for the average of this batch of 2000 articles. 9

## Group-B

2. What are the aims and objectives of teaching History at school level? 9
3. Describe the chronological approach to organisation of contents in History curriculum. 9
4. Discuss about the school history curriculum of Odisha. 9
5. Explain narration-cum-discussion method of teaching History with example. 9
6. Discuss the different types of teaching-learning materials used in teaching history. 9
7. Prepare a Lesson plan on any topic of your choice from class VI History textbook of Odisha Herbartian approach. 9
8. Draw a relationship of history with other school subjects like Geography and Mathematics. 9

c) Show that the necessary and sufficient condition for the vector valued function  $\vec{V}(t)$  to have

constant direction is  $\vec{V} + \frac{d\vec{V}}{dt} = 0$  6

d) Show that  $\nabla \cdot (\vec{F} \times \vec{g}) = \vec{g} \cdot \text{curl } \vec{F} - \vec{F} \cdot \text{curl } \vec{g}$  6

1. Answer any **three** of the following : 4 × 3

i) Find the value of  $\int_0^{\pi/2} \sin^8 x \, dx$

ii) Find the curve  $y = \log x$  is concave or convex upward.

iii) Find the asymptote parallel to the coordinate axes for the curve  $\frac{a^2}{x^2} + \frac{b^2}{y^2} = 1$

iv) Determine the nature of origin of the curve  $y^2(a - x) = x^3$ .

v) Find the point of inflection of the curve  $x = 3y^4 + 4y^2 + 5$

V-293-0.5

[ 2 ]

2. a) Find the asymptotes of the curve  $x^3 + y^3 = 3axy$ . 6  
 b) Find the  $n$ th derivative of the curve  $y = x^n e^x$  6

OR

- c) Show that  $y = e^x$  is concave upward. 6  
 d) Find the  $n$ th derivative of  $\frac{1}{x^2 + x + 1}$  6

3. a) Trace the curve  $y^2(a^2 - x^2) = a^2x$ . 6  
 b) Obtain the reduction formula for  $\int x^n e^{-x} dx$  6

OR

- c) Trace the curve. 6  
 $x = a(Q + \sin\theta), y = a(1 + \cos Q)$ .  
 d) Determine  $\lim_{x \rightarrow 0} (\cos x)^{1/x^2}$  6

4. a) Find the perimeter of the curve 6  
 $r = a(1 + \cos Q)$

[ 3 ]

- b) Find the volume of the solid formed due to rotation of the ellipse

$$\frac{x^2}{4} + \frac{y^2}{3} = 1 \text{ about axis of } x \quad 6$$

OR

- c) Find the area bounded by the curve . 6  
 $x^{2/3} + y^{2/3} = a^{2/3}$

- d) Find the surface of the solid generated by the revolution of the curve 6  
 $x = a \cos^3 t, y = a \sin^3 t$ .

5. a) Find the equation of the sphere which passes through the points (1, 1, 2), (1, 0, 1) and whose centre lies on the straight line. 6  
 $x + y + z - 4 = 0 = x - y + z + 2$

- b) Find the equation of the cone whose vertex is (1, 1, 2) and whose guiding curve in the ellipse

$$\frac{x^2}{16} + \frac{y^2}{9} = 1, z = 0. \quad 6$$

OR

[ 2 ]

4. a) Discuss the administration and religion of Harshavardhana.

OR

- b) Evaluate the achievements of sultan Ghiyasuddin Balban.

5. a) Give an account of the reforms of sultan Alauddin Khiliji.

OR

- b) Discuss the causes of the decline of the Delhi Sultanate.

Answer *all* questions

1. a) What is 'Figure' and what is 'Mood' in a Syllogism? Determine valid moods in 2nd Figure. 2 + 2+16

OR

- b) Prove that :
- i) If one of the premise be negative, the conclusion must be negative. 10
- ii) From a particular major premise and a negative minor premise, no conclusion follows. 10

2. a) What, according to C.Lewis, are the characteristics of Symbolic Logic? 10

V-351

[Turn Over

[ 2 ]

b) Distinguish between Inference and Implication. 10

OR

c) Explain with examples the following truth functions :

i) The Implicative Function. 10

ii) The alternative Function. 10

3. Construct truth-table for the following propositional formula and say which of them are tautologies. 6 + 6 + 8

i)  $(p \supset q) \supset (\sim q \supset \sim p)$

ii)  $(p \cdot q) \supset (p \vee q)$

iii)  $((p \supset q) \supset r) \supset (p \supset (q \supset r))$

OR

How are proposition classified according to their matrix numbers ? Explain. 20

4. Reduce the following formulae into CNF and say which of them are tautologies. 8 + 12

i)  $((p \supset q) \cdot \sim q) \supset \sim p$

ii)  $((p \supset q) \cdot (q \supset r)) \supset (p \supset r)$

OR

[ 3 ]

Test the validity of the following arguments by the method of equivalent substitution. 10

a) i)  $(A \vee B) \supset C$

ii)  $\sim C$

Therefore,  $\sim B$

b) i)  $\sim p \supset q$  10

ii)  $q \supset R$

iii)  $\sim R$

Therefore,  $p$

5. Translate the following propositions by appropriate quantifiers. 5 × 4

a) All men are mortal.

b) No crows are cows.

c) Some politicians are liars.

d) Some men are not honest.

Answer *all* questions from both sections

**Section-A**

1. a) Discuss the political, social and cultural background of the Jacobean Age. 7½

OR

- b) Bring out Chaucer's realism in the portrayal of the Wife of Bath.

2. a) Describe the characteristics of true love in the light of Shakespeare's 'Sonnet No.116'. 7½

OR

- b) Critically analyse Ben Jonson's love poem 'Song to Celia'.

[ 2 ]

3. a) Discuss the role of the three Witches in *Macbeth*. 7½

OR

b) Sketch the character of Banquo.

4. a) Write a note on wit and humour in *Twelfth Night*. 7½

OR

b) Sketch the character of Lady Olivia.

### Section-B

5. a) Discuss the historical, political, social and cultural factors which gave birth to the English Renaissance. 12½

OR

b) Discuss the Chaucer's art of characterisation with special reference to the Wife of Bath.

6. a) "Throughout *Macbeth*, we watch the deterioration of a great man ; but we never lose the sense of his greatness". Discuss. 12½

OR

b) Sketch the character of Lady Macbeth.

[ 3 ]

7. a) Discuss the elements of the romantic comedy in *Twelfth Night*. 12½

OR

b) Sketch the character of Viola.

8. a) Write a critical appreciation of Shakespeare's Sonnet no 73, commenting on the imagery used in it. 12½

OR

b) Critically appreciate Spenser's 'Sonnet no. 75' and point out the differences between Shakespearean Sonnet and Spenserian Sonnet.

**Group-B**

2. Discuss the basic economic problems faced by any economy. 12½
3. State and explain Law of Demand and point out its limitations. 12½
4. Explain the modern theory of incidence of taxation. 12½
5. Explain methods of measurement of Elasticity of Demand. 12½
6. State and explain first order necessary and second order sufficient condition for the attainment of consumer's equilibrium under Indifference Curve technique. 12½
7. 'Law of Increasing Return is an empirical fact whereas law of Diminishing Return is the logical necessity'. 12½
8. Explain the Marginal Productivity theory of distribution. 12½

Answer **all** questions

*Symbols used have their usual meaning*

1. a) Show that for the curve

$$\frac{x + \sqrt{a^2 + y^2}}{a} = \log \frac{a + \sqrt{a^2 - y^2}}{y}$$

$y \frac{ds}{dy}$  is constant

OR

- b) Find the radius of curvature for the curve

$$x = a(t + \sin t), y = a(1 - \cos t).$$

2. a) Trace the curve  $y^2 x^2 = x^2 - a^2$ .

OR

- b) Find the length of the arc of the catenary

$y = c \cosh \frac{x}{c}$  measured from the vertex (0, c) to any point (x, y).

[ 2 ]

3. a) Find the area of the loop of the curve  $x^3 + y^3 = 3axy$ .

OR

- b) Find the area of ellipse  $\frac{x^2}{a^2} + \frac{y^2}{b^2} = 1$

4. a) Find the volume of the solid generated by revolving the curve  $x^{2/3} + y^{2/3} = a^{2/3}$  about x-axis.

OR

- b) Find the surface of the sphere of radius a.

5. a) Solve  $(2x+y+3) \frac{dy}{dx} = x+2y+3$ .

OR

- b) Solve  $(px - y)^2 = (1 + p^2)(x^2 - y^2)$ .

6. a) Solve  $(1 - x^2) \frac{dy}{dx} - xy - axy^2 = 0$

OR

[ 3 ]

- b) Find orthogonal trajectories of the family.

i)  $\frac{x^2}{a^2} + \frac{y^2}{a^2 + \lambda} = 1$

ii)  $r = 2a \cos \theta$

7. a) Solve  $\frac{d^2y}{dx^2} - 2\frac{dy}{dx} + 4y = e^x \cos x$

OR

- b) Find the general solution of  $x^2y'' + 2x(1 - x)y' + x(x - 2)y = 0$ .

8. a) Find the laplace transform of

i)  $\sin^2 2t$

ii)  $e^{-2t} \cos t$

OR

- b) Solve using laplace transform

$$y'' - 4y' + 4y = 0, \quad y(0) = 0, \quad y'(0) = 3.$$

**Group-B**

2. Describe the functions of Educations towards society. 9
3. Discuss the aim of education for individual development. 9
4. Describe educational implications of Meta-physics. 9
5. Narrate the educational implications of Vedanta Philosophy. 9
6. What is Pragmatism and what are its educational implications ? 9
7. Describe the influence of Gandhiji on the aims and curriculum of Indian Education. 9
8. Write the influence of John Dewey on the practice of Education. 9

Answer *five* questions including Q.No1  
which is compulsory**Group-A**

1. Answer on any *four* of the following : 6 × 4
  - a) Explain the nature of Education.
  - b) What is meant by Education for social efficiency ?
  - c) Define philosophy and Education each.
  - d) What is Epistemology ?
  - e) What is Sankhya Philosophy ?
  - f) Explain then Naturalistic method of teaching
  - g) What is the Integral Education ?

- f) What are the major areas found in cerebral cortex? What functions do they serve?
- g) Briefly point out everyday changes in consciousness.
- h) What do you mean by extended states of consciousness? Examine hallucinations as extended state of consciousness.

### Group-B

*(Each answer should be within 250 words)*

2. Discuss psychology as a scientific discipline. 9
3. Briefly explain the cognitive, Humanistic and Sociocultural perspective of psychology. 9
4. Discuss the merits and limitations of survey method and case study with suitable examples. 9
5. Discuss the nature, advantages and limitations of correlational methods. 9
6. With a suitable diagram, discuss the structure and functions of a neuron. 9
7. Briefly discuss the structure and functions of Autonomic Nervous System. 9
8. Examine and explain hypnosis and meditation as extended states of consciousness. 9

Answer *all* questions

1. a) A box contains 5 red and 2 white balls. In how many ways can 6 balls be selected so that there are at least two balls of each colour? 6  
 b) How many triangles can be made whose vertices are at the vertices of an octagon but none of whose sides happens to come from the sides of the octagon? 6

OR

- c) Find the coefficients of  $x^2$  and  $x^{-17}$  in the expansion of  $\left(x^4 - \frac{1}{x^3}\right)^{15}$  6  
 d) Evaluate  $\sum_{n=1}^{\infty} \frac{n^2}{(n+1)!}$  6

[ 2 ]

2. a) If A is a non-singular square matrix then prove that  $\text{adj}(\text{adj } A) = |A|^{n-2} A$  where n is order of A. 6

b) If A is a singular matrix then prove that

$$|A^{-1}| = |A|^{-1} \quad 6$$

OR

c) Using elementary transformation find the inverse of the matrix

$$A = \begin{bmatrix} 2 & 1 & 0 \\ 3 & -2 & -1 \\ 3 & 0 & -5 \end{bmatrix} \quad 12$$

3. a) Find the rank of the matrix 12

$$A = \begin{bmatrix} -2 & -4 & -1 & 1 \\ 3 & -2 & 1 & 3 \\ 0 & -7 & 3 & 6 \\ -1 & -1 & 3 & 2 \end{bmatrix}$$

OR

[ 3 ]

b) Show that the homogeneous system of equations

$$x - 2y + z = 0$$

$$x + y - z = 0$$

$$3x + 6y - 5z = 0$$

has non-trivial solution and hence find the solution. 12

4. a) Explain storage systems of a computer. 6

b) Differentiate between :

i) Input devices and output devices. 3

ii) Primary memory and secondary memory. 3

OR

c) Write short notes on : 4 × 3

i) Processing unit

ii) display devices

iii) Operating system of a desktop.

5. a) Note down the steps to print an MS-Power point document. 3

- g) Write a note on Formal social control
- h) Write a note on Assimilation.

**Group-B**

2. Discuss the Emergence of Sociology. 12½
3. Discuss the importance of Norms and values in society. 12½
4. Critically examine C.H. Cooley's looking glass self theory. 12½
5. Critically examine Functionalist theories of social stratification. 12½
6. Define social mobility and discuss its importance. 12½
7. Define Social Control and discuss different types of informal social control. 12½
8. Define Co-operation and differentiate between co-operation and conflict with examples. 12½

Answer *all* questions

1. a) Write the postulates of Kinetic molecular theory of gases. 5
- b) Derive an expression for the pressure exerted by the molecules of a gas on the basis of kinetic molecular theory of gases. 10

OR

- c) Write notes on Maxwell's distribution of molecular velocities. 9
- d) Explain Root mean square velocity, average velocity and most probable velocity. 2 × 3

2. a) Write notes on the following :

- Brownian movement 3
- Hardy-Schulze rule 5
- Electrophoresis 5
- Gold number 2

OR

- b) Explain the terms phase, component and degree of freedom with example. 2½ × 3

[ 2 ]

- c) Draw and explain phase diagram of water system. 7½
3. a) Write notes on the following :
- i) de Broglie equation 4
  - ii) Pauli exclusion principle 4
  - iii) Shape of 'd' orbitals 4
  - iv) Hund's rule. 3

OR

- b) What is ionisation energy ? How does it vary along a period and down a group ? 2 + 4
- c) Explain the following : 2 × 3
- i) Second ionisation energy of an element is always greater than its first ionisation energy.
  - ii) Electron affinity of 'F' is less than that of 'Cl'.
  - iii) Electronegativity value of noble gases is almost equal to zero.
- d) Between  $F^-$ , Ne and  $Na^+$  which will have smallest size and why ? 3
4. a) What is lattice energy ? How can the lattice energy of NaCl be determined using Born-Haber cycle ? 2 + 5
- b) Write the conditions for hybridisation. 2
- c) Explain the shape of the following molecules basing on VSEPR theory. 6
- (i)  $NH_3$
  - (ii)  $H_2O$ .

[ 3 ]

OR

- d) Discuss the shapes of the following on the basis of hybridisation. 6
- i)  $CH_4$
  - (ii)  $C_2H_4$
  - (iii)  $C_2H_2$ .
- e) Draw the molecular orbital diagram of  $N_2$  molecule. Calculate its bond order and predict its magnetic character. 3 + 2
- f) Explain :
- i) Oxygen molecule is paramagnetic 2
  - ii) Half filled and fully filled orbitals are more stable. 2
5. a) What are Carbanions ? Discuss the formation, structure and stability of  $1^0$ ,  $2^0$  and  $3^0$  carbanions. 2 + 2 + 2 + 6
- b) Explain with example : 5 + 3
- i) Hyperconjugation
  - (ii) Steric effect.

OR

- c) Explain :
- i) Chloroacetic acid is more acidic than acetic acid. 2
  - ii) Methylamine is more basic than ammonia. 2
- d) Give IUPAC names of the following : 4
- i)  $OHC - CH_2 - CO - CH_3$

[ 2 ]

3. Discuss the mechanism of stomatal opening and closing in plants during transpiration.

Or

Write notes on the following :

- a) Osmosis
- b) Plasmolysis.

4. Give an account of TCA cycle.

Or

Write notes on the following :

- a) Inhibitors
- b) C<sub>4</sub> plants.

5. Discuss the causes, effects and control measures of Water pollution.

Or

Write notes on the following :

- a) Tetrasporic embryosac
- b) Ecological anatomy of stem of hydrophytes.

The figures in the right-hand margin indicate marks

Answer *all* questions*Symbols used have their usual meaning.*

1. a) Solve the following systems of linear equations by matrix inversion method : 7

$$x + y - 2z = 3$$

$$3x + y - z = 8$$

$$2x - y + z = 0$$

- b) Find the rank of the matrix by using row-reduction method : 6

$$\begin{bmatrix} 1 & 2 & -1 & 0 \\ -1 & 3 & 0 & -4 \\ 2 & 1 & 3 & -2 \\ 1 & 1 & 1 & -1 \end{bmatrix}$$

OR

[ 2 ]

- c) Find the rank and nullity of the matrix.

$$\begin{bmatrix} 2 & 0 & 1 \\ 7 & 1 & 2 \\ 3 & -1 & 1 \end{bmatrix} \quad 7$$

- d) Solve the following system of equations by using Cramer's rule : 6

$$2x - 3y + z = 1$$

$$x + y - z = 0$$

$$x - 2y + z = -1$$

2. a) Find the eigenvalues and eigenvectors of the matrix : 12

$$\begin{bmatrix} 1 & -1 & 2 \\ 0 & 1 & 0 \\ 1 & 2 & 1 \end{bmatrix}$$

OR

- b) Reduce the matrix : 12

$$A = \begin{bmatrix} 1 & 2 & -2 \\ 2 & 1 & 2 \\ -2 & 2 & 1 \end{bmatrix} \text{ to the diagonal form.}$$

[ 3 ]

3. a) If  $\vec{r} = \vec{a}\cos\lambda t + \vec{b}\sin\lambda t$ , where  $\vec{a}$ ,  $\vec{b}$  are constant vectors, then show that. 7

i)  $\frac{d^2\vec{r}}{dt^2} + \lambda^2\vec{r} = 0$

ii)  $\vec{r} \times \frac{d\vec{r}}{dt} = \lambda(\vec{a} \times \vec{b})$

- b) Find  $\text{div}(\text{curl } F)$ , where

$$F = x^2y\hat{i} + xz\hat{j} + 2yz\hat{k} \quad 6$$

OR

- c) Verify that

$$u = (6xy + z^3)\hat{i} + (3x^2 - z)\hat{j} + (3xz^2 - y)\hat{k}$$

is irrotational. 7

- d) If  $u = (3x^2y - z)\hat{i} + (xz^3 + y^4)\hat{j} - 2x^3z^2\hat{k}$  then find  $\text{grad}(\text{div } u)$  at  $(2, -1, 0)$ . 6

[ 4 ]

4. a) Evaluate  $\int_c F \cdot dr$  where  $F = x^2 y^2 \hat{i} + y \hat{j}$  and the curve  $c$  is  $y^2 = 4x$  in the  $xy$ -plane from  $(0, 0)$  to  $(4, 4)$ . 6

b) Evaluate

$\int F \cdot ndS$  where  $F = z \hat{i} + x \hat{j} - 3y^2 z \hat{k}$  and  $S$  is the surface of the cylinder  $x^2 + y^2 = 16$  included in the first-octant between  $z = 0$  and  $z = 5$ . 6

OR

c) Apply Gauss' theorem, evaluate  $\int_s F \cdot ndS$

where  $F = x \hat{i} - y \hat{j} + (z^2 - 1) \hat{k}$  and  $S$  is the cylinder formed by the surfaces  $z = 0$ ,  $z = 1$ ,  $x^2 + y^2 = 4$ . 6

d) Verify Stokes' theorem for the function

$F = x^2 \hat{i} + xy \hat{j}$ , integrated round the square in the plane  $z = 0$ , whose sides are along the lines  $x = 0$ ,  $y = 0$ ,  $x = a$ ,  $y = a$ . 6

[ 5 ]

5. a) i) If  $G$  is a group, then the identity element of  $G$  is unique. 3

ii) If  $G$  is a group then for all  $a, b \in G$   $(a \cdot b)^{-1} = b^{-1} \cdot a^{-1}$ . 3

b) If  $G$  is a finite group and  $H$  is a subgroup of  $G$  then  $O(H)$  is a divisor of  $O(G)$ . 7

OR

c) If  $N$  is a normal subgroup of  $G$  if and only if  $g N g^{-1} = N$  for every  $g \in G$  6

d) If  $\phi$  is a homomorphism of  $G$  into  $\bar{G}$  with kernel  $K$  then  $K$  is a normal subgroup of  $G$  7

6. a) Solve : 6

$$\frac{d^3 y}{dx^3} + 2 \frac{d^2 y}{dx^2} + \frac{dy}{dx} = e^{2x} + x^2 + x$$

b) Find the particular integral of

$$(D^3 + 1)y = e^x \cos x + \sin 3x \quad 6$$

OR

[ 6 ]

- c) Solve :  $x^2 \frac{d^2y}{dx^2} - x \frac{dy}{dx} - 3y = x^2 \log x$
- d) Solve :  $(D^2+ 4)y = 4 \tan 2x$  6

7. a) Use the Laplace transformation to solve the following equation :  $y'' - 2y' - 3y = 0, y(0) = 1, y'(0) = 7$  7
- b) Find the Laplace transform of the function
- i)  $f(t) = e^{at} t^n$  3
- ii)  $f(t) = a + bt + ct^2$  3

OR

- c) Use the Laplace transformation to solve the following initial value problem. 7
- $y'' + y = 2e^t$  ,  $y(0) = y'(0) = 2$ .
- d) Find the inverse transform of
- i)  $\frac{1}{p(p+1)^2}$  3
- ii)  $\frac{p+3}{p^2+2p+10}$  3

[ 7 ]

- 8 a) Solve the following cubic by Cardan's method :  $35x^3 - 18x^2 + 1 = 0$ . 12

OR

Solve the following equation by Ferrari's method :

$x^4 - 4x^3 - 4x^2 - 24x + 15 = 0$ . 12

V-246-0.3

8. a) Solve :  $p^2x^2 - 2xyp + 2y^2 - x^2 = 0$

OR

b) Solve :  $y = 2xy - p^3$

9. a) Solve :  $(D^2 + 4D + 5)y = x + \cos 2x$

OR

b) Obtain the inverse transform of the following :

i)  $\frac{p+3}{p^3 + p^2 - 6p}$

ii)  $\frac{p}{(p+1)^2}$

10. a) Solve  $xy'' - y' + (1-x)y = xe^{-x}$

OR

b) Solve using Laplace Transform :

$y'' + 2y' + 2y = 2$  given  $y(0) = 0, y'(0) = 1$ .

**2016**

Full Marks - 100

Time - 3 hours

The questions are of equal value

Answer **all** questions1. a) Find the radius of curvature at any point  $(r, \theta)$  on the cardioide  $r = a(1 + \cos \theta)$ .

OR

b) Find the asymptotes to the curve  
 $3x^3 + 2x^2y - 7xy^2 + 2x^2 - 14xy + 7y^2 + 4x + 5y = 0$ 2. a) Rectify the curve  $x = a(t + \sin t), y = a(1 + \cos t)$ 

OR

b) Find the surface of the solid generated by revolving the arc of the parabola  $y^2 = 4ax$  bounded by its latus rectum about x-axis.3. a) Find the equation of the sphere for which the circle  $x^2 + y^2 + z^2 + 7y - 2z + 2 = 0 = 2x + 3y + 4z - 8$  is a great circle. Find the radius and centre of the sphere.

OR

[ 2 ]

b) Prove that the equation :

$4x^2 - y^2 + 2z^2 - 2xy - 3yz + 12x - 11y + 6z + 4 = 0$   
represents a cone; find its vertex.

4. a) Find the equation of the right circular cylinder of radius 2 and whose axis passes through (1, 2, 3) and has direction ratios 2, -2, 6.

OR

b) Find the equation of the tangent plane to the conicoid  $2x^2 - 6y^2 + 3z^2 = 5$  which passes through the line  $x + 9y = 0 = 3x - 3y + 6z - 5$ .

5. a) Show that the function

$$f(x,y) = \begin{cases} xy \frac{x^2 - y^2}{x^2 + y^2}, & (x,y) \neq (0,0) \\ 0, & (x,y) = (0,0) \end{cases}$$

is continuous at origin.

OR

[ 3 ]

b) If  $u = (x^2 + y^2 + z^2)^{-1/2}$  prove that

i)  $x \frac{\partial u}{\partial x} + y \frac{\partial u}{\partial y} + z \frac{\partial u}{\partial z} = -u$

ii)  $\frac{\partial^2 u}{\partial x^2} + \frac{\partial^2 u}{\partial y^2} + \frac{\partial^2 u}{\partial z^2} = 0$

6. a) Expand  $e^x \tan^{-1} y$  about (1, 1) upto the second degree in  $(x - 1)$  and  $(y - 1)$

OR

b) Test the function  $f(x, y) = x^3 - y^3 + 3x^2 - 3y^2 - 9x$  for relative maxima, relative minima and saddle points if any.

7. a) Solve the IVP :

$$9(y - 1)dy + (x - 3)dx = 0, \quad y(3) = 0$$

OR

b) Solve :  $\frac{dy}{dx} + \frac{y}{x} = \frac{y^2}{x} \log x$

4. For steady flow of a liquid, derive poiseuille's equation and calculate the volumerate of liquid flow from the equation. 6 + 3
5. Setup and solve the differential equation for damped simple and harmonic motion. Discuss the underdamped case and show that there is logarithmic decrement of amplitude. 5 + 4
6. Derive the expression for the gravitational field intensity inside and outside a solid sphere of mass  $M$  and radius  $R$ . Plot the results as a function of the radial coordinate and find the value at the surface. How can you obtain the potential, given the intensity. 3+3+1+1 +1
7. Reduce the two-body central force problem to the equivalent one-body problem and deduce the energy equation for the Kepler problem and plot the energy diagram. 3 + 4 + 2
8. a) Derive Einstein's mass-energy equivalence relation. 5
- b) Show that the space-time interval between a pair of events is a Lorentz invariant. 4

**2016**

Answer *five* questions including Q.No1 which is compulsory**Group-A**

1. Write short notes on any *four* of the following :
- a) i) Distinguish between inertial and non-inertial frames of reference. 2
- ii) Write the Galilean transformation equations and prove that Force in Newton's 2nd law is a Galilean invariant. 2 + 2
- b) i) State Work-energy theorem and apply it to prove that a constant force is conservative in nature. 2 + 1
- ii) Calculate the work done when a block is moved through a distance on a horizontal table and is brought back to the starting point, given that coefficient of friction is 0.5. Is friction non-conservative? 2 + 1

[ 2 ]

- c) i) Define angular momentum of a particle about a point and calculate the angular momentum of a particle moving along the x-axis about the point (0, 5, 0). What is the direction of this angular momentum? 1 + 3 + 1
- ii) What is the angular momentum in the above example if it is evaluated about an axis making an angle  $30^\circ$  with the z-axis? 1
- d) i) Define the three elastic constants.  $1\frac{1}{2} \times 3$
- ii) Define Poisson's ratio and state its limits.  $1\frac{1}{2}$
- e) i) Distinguish between inertial and gravitational mass of an object and establish their proportionality. 3 + 1
- ii) State the law of Universal gravitation due to Newton in vectorial form and depicts the forces in a diagram. 1 + 1
- f) Write the Lorentz transformation equations and derive the expression for length contraction. 2 + 4
- g) Calculate the moment of inertia of a solid cylinder about an axis perpendicular to its geometrical symmetry axis and passing through its centre of mass. 6

[ 3 ]

- h) i) Calculate the mass of photons of wavelength emitted by sodium vapour lamp at  $5893\text{\AA}$  using mass-energy relation and the Planck-Einstein formula. 3
- ii) What would be the velocity of a class of beings such that 1 year for us equals just a day for them? 3

### Group-B

2. Derive the equation of motion for a particle of mass  $m$  in moving with velocity  $\vec{v}$  with respect to a rotating frame of angular velocity  $\vec{\omega}$ . Identify the centrifugal and coriolis accelerations of the particle from this equation. What is the correction to the acceleration due to gravity on earth surface at a latitude  $\phi$  due to the centrifugal term? 5 + 2 + 2
3. a) Show that the angular momentum of a system of particles is the sum of angular momentum of the centre of mass about the reference point and the angular momentum about the centre mass. 5
- b) State and prove the principle of conservation of angular momentum for such a system. 4

7. a) Give an account of different types defects commonly produced in crystals. 3
- b) Elaborate on the analysis power diffraction pattern of NaCl crystal. 6

OR

- c) Describe different types of symmetries and symmetry operations in Crystallography. 6
- d) Discuss on the classification of liquid crystals on the basis of molecular arrangement. 3
8. a) Derive an expression for the  $p^H$  of an aqueous solution of a salt of weak acid and weak base. 6
- b) Aqueous solution of ammonium chloride is acidic but that of sodium chloride is neutral— Explain. 3

OR

- c) What is Solubility product principle? Discuss the application of this principle in Qualitative analysis. 6
- d) Explain the terms—'Buffer Capacity' and 'Buffer range'. 3

Answer *all* questions**Group-A**

1. a) State and explain the principle of equipartition of energy. Using this principle calculate the average internal energy of a molecule of carbon monoxide at  $27^\circ\text{C}$  ( $K = 1.38 \times 10^{-23} \text{ JK}^{-1}$ ). 4+2

OR

- b) i) Write a note on different types of molecular velocities used in the study of gases 4
- ii) Calculate the most probable velocity of  $\text{SO}_2$  molecules at  $227^\circ\text{C}$ .  
( $R = 8.31 \times 10^7 \text{ ergs K}^{-1} \text{ mol}^{-1}$ ). 2
2. a) i) What are electrolytes? Discuss their classification with suitable examples. 4

[ 2 ]

- ii) Calculate the  $p^H$  of a decinormal solution of acetic acid which is 1.6 percent ionized. 2

OR

- b) Write notes on the following : 4 + 2
- i)  $p^H$  Scale
- ii) Ionic product of water.
3. a) i) Outline the important characteristics of Solid State. 4
- ii) Find out Miller indices of a crystal plane whose Weiss indices are  $2a, 2b, 3c$ . 2

OR

- b) i) Write an explanatory note on Bravais Lattice. 4
- ii) Calculate the number of atoms per unit cell of bcc and fcc lattices. 2
4. a) What is meant by Buffer Solution ? Explain the buffer action of  $NH_4OH - NH_4Cl$  buffer mixture. 6

OR

- b) Derive an expression for the  $p^H$  of an acidic buffer solution. 6

[ 3 ]

### Group-B

5. a) Derive an expression for the pressure exerted by the molecules of a gas on the basis of Kinetic theory. 9

OR

- b) Deduce expressions for critical constants in terms of Van der Waals constants. 9
6. a) Define and explain the terms ; 'Surface tension and surface energy'. 3
- b) Describe the Capillary rise method for determination of surface tension of liquids. 6

OR

- c) Derive Ostwald dilution law for weak electrolytes. 3
- d) Deduce exact expression for dissociation constant ( $K_a$ ) of a weak monoprotic acid, HA. Show that the exact expression is reducible to the form,

$$\left[ H_3O^+ \right] = \sqrt{K_a [HA]_0},$$

where  $[HA]_0$  is the total concentration of the acid. 6

**Group-B**

2. Describe meiosis-I in a plant meiocyte emphasising behaviour of chromosomes. 9
3. Describe the structure of an interphase nucleus highlighting organisation of chromatin. 9
4. Describe the fluid mosaic model of plasmamembrane and explain the role of proteins present in it. 6 + 3
5. Elaborate the structure of B-DNA with labelled diagram. Explain the features on which replication and transcription proceeds. 6 + 3
6. Define carbohydrates and give an outline classification of the group. Explain the structure of starch and cellulose. 3 + 6
7. Explain the mechanism of enzyme action in cells. 9
8. Give in detail the structure and function of Mitochondria with special emphasis on its semi autonomous role. 9

which is compulsory

**Group-A**

1. Write notes on any *eight* of the following :  $3 \times 8$ 
  - a)  $(11001111)_2 = (?)_8$ ,  $(230)_8 = (?)_2$
  - b) Define logic gates. Name some logic gates
  - c) Define Flip-Flop. Name some flip-flops available.
  - d) Explain the functionality of the control unit
  - e) How indexing and arrays are related ?
  - f) What is the major difference between stack and queue ?

[ 2 ]

- g) Write the difference between RAM and ROM in brief.
- h) What is Addressing Mode ?
- i) What is Flash Memory ?
- j) What is Subrooting ?

**Group-B**

- 2. Draw a Karnaugh map for the following function of four variables and use it to reduce the function. How you will realize the reduced function by using 9
  - i) NAND gates
  - ii) NOR gates,  $F = \sum m(0, 1, 4, 5, 12, 13, 8, 9, 6, 14)$
- 3. a) What are universal gates and they are called so ? Give truth table of at least two distinct universal gates. 2 + 2 + 2
- b) Convert the following numbers to decimal equivalent. 3
  - i)  $(670)_8 = (?)_{16}$
  - ii)  $(1035)_8 = (?)_{10}$

[ 3 ]

- 4. a) Describe the working of a RS-flip-flop. How it differs from D flip-flop. 5
- b) Write short notes on Decoders in briefly. 4
- 5. a) What is a ripple counter ? How it works ? Explain with logic diagram. 5
- b) Write short notes on Multiplexers in briefly. 4
- 6. a) Is the ALU part of a CPU ? What about memory ? Discuss their functions. 5
- b) Add +9 and -8 using 2's complement in 8bits and Express -6 in 2's complements form. 4
- 7. a) Write the differences between Stack and Queue. 5
- b) Write short notes on Subroutines in briefly. 4
- 8. a) Write short notes on *three* of the following : 3 × 3
  - i) Flash Memory
  - ii) Static Memories
  - iii) Asynchronous DRAMS
  - iv) RAMBUS Memory.

- ii) Let  $T : \mathbb{R}^2 \rightarrow \mathbb{R}^3$  be a linear transformation such that  $T(x_1, x_2) = (x_1 - 2x_2, -x_1 + 3x_2, 3x_1 - 2x_2)$ . Find  $x$  such that  $T(x) = (-1, 4, 9)$ .  $4\frac{1}{2}$
6. i) Define linear transformation. If  $T : \mathbb{R}^n \rightarrow \mathbb{R}^m$  be a linear transformation and  $A$  be the standard matrix for  $T$ , then prove that  $T$  is one-to-one iff the columns of  $A$  are linearly independent.  $2+6$
- ii) Determine if the linear transformation  $T : \mathbb{R}^4 \rightarrow \mathbb{R}^4$  defined by  $T(x_1, x_2, x_3, x_4) = (0, x_1 + x_2, x_2 + x_3, x_3 + x_4)$  is (a) one-to-one (b) onto  $4\frac{1}{2}$
7. i) Prove that the eigenvalues of a triangular matrix are the entries on its main diagonal.  $6$
- ii) Find the characteristic polynomial of the matrix  $A$  and find the eigen values with multiplicity.

$$A = \begin{bmatrix} 4 & -7 & 0 & 2 \\ 0 & 3 & -4 & 6 \\ 0 & 0 & 3 & -8 \\ 0 & 0 & 0 & 1 \end{bmatrix} \quad 6\frac{1}{2}$$

8. i) Prove by mathematical induction that  $1^2 - 2^2 + 3^2 - 4^2 + \dots + (-1)^{n-1} n^2 = (-1)^{n-1} n(n+1)$ , for all  $n \geq 1$ .  $6\frac{1}{2}$
- ii) For any integer  $n \geq 1$ ,  $2^{2n} - 1$  is divisible by 3.  $6$

Answer **five** questions including Q.No1 which is compulsory**Group-A**

1. Answer on any **four** of the following :  $7\frac{1}{2} \times 4$
- a) Solve :  $z^4 = 5(z-1)(z^2 - z + 1)$ .
- b) Show that the product of all the straight lines that can be drawn from one of the angles of a regular polygon of  $n$  sides in a circle of radius  $a$  to all other angular points is  $na^{n-1}$ .
- c) Prove that given integers  $a$  and  $b$ , not both of which are zero, there exists integers  $m$  and  $n$  such that  $g = \gcd(a, b) = ma + nb$ .
- d) For  $a, b \in \mathbb{N}$  define  $a \sim b$  if and only if  $a^2 + b$  is even. Prove that  $\sim$  defines an equivalence relation on  $\mathbb{N}$  and find the quotient set determined by  $\sim$ .

[ 2 ]

e) Row reduce the matrix

$$A = \begin{bmatrix} 0 & -3 & -6 & 4 & 9 \\ -1 & -2 & -1 & 3 & 1 \\ -2 & -3 & 0 & 3 & -1 \\ 1 & 4 & 5 & -9 & -7 \end{bmatrix}$$

into echelon form and locate the pivot columns of A.

f) Find a basis for the nullspace of the matrix

$$A = \begin{bmatrix} 4 & 5 & 9 & -2 \\ 6 & 5 & 1 & 12 \\ 3 & 4 & 8 & -3 \end{bmatrix}$$

$$g) \text{ Let } V_1 = \begin{bmatrix} 1 \\ 2 \\ 3 \end{bmatrix}, \quad V_2 = \begin{bmatrix} 5 \\ 5 \\ 6 \end{bmatrix}, \quad V_3 = \begin{bmatrix} 2 \\ 1 \\ 0 \end{bmatrix}$$

i) Determine whether  $\{v_1, v_2, v_3\}$  is linearly independent or not.ii) If possible, find a linear dependence relation among  $v_1, v_2, v_3$ .

$$h) \text{ Is } \lambda = 3 \text{ an eigenvalue of } \begin{pmatrix} 1 & 2 & 2 \\ 3 & -2 & 1 \\ 0 & 1 & 1 \end{pmatrix} ?$$

If so find the one corresponding eigenvector.

[ 3 ]

**Group-B**2. State and prove De Moivre's theorem for rational indices and find the cube roots of  $z = 2 + 2i$ . 2+6+4½3. i) Given any natural number  $n > 1$ , prove that there exists a prime  $p$  such that  $p|n$ . Also using it show that there are infinitely many primes. 6 + 3ii) Is  $2^{15} - 1$  prime? Explain 3½

4. i) Write the matrix equation

$$\begin{bmatrix} 5 & 1 & -8 & 4 \\ -2 & -7 & 3 & -5 \end{bmatrix} \begin{bmatrix} 5 \\ -1 \\ 3 \\ 2 \end{bmatrix} = \begin{bmatrix} -8 \\ 16 \end{bmatrix}$$

as vector equation. 6½ii) Write the solution of the given homogeneous system in parametric vector form. 6

$$\begin{aligned} x_1 + 3x_2 + x_3 &= 0 \\ -4x_1 - 9x_2 + 2x_3 &= 0 \\ -3x_2 - 6x_3 &= 0 \end{aligned}$$

5. i) Define Invertible matrix. If A is an  $n \times n$  invertible matrix, then for each in  $\mathbb{R}^n$  the equation  $Ax = b$  has the unique solution  $x = A^{-1}b$ . 2 + 6

[ 2 ]

- b) Explain how a Bill becomes Law.
4. a) Discuss the role of Comptroller and Auditor General of India. 12½
- OR
- b) Examine the role of Executive in Law Making.

Time - 2 hours

The figures in the right-hand margin indicate marks

Answer *three* questions including Q.No1

which is compulsory

**Group-A**

1. Write short notes on any *two* of the following :  $7\frac{1}{2} \times 2$ 
  - a) Meaning of 'antiquity'
  - b) Tangible heritage
  - c) Tajmahal
  - d) Sun temple at Konark.

**Group-B**

2. Write a note on the five important archaeological sites of India. 12½
3. Discuss about the principal museum-regulatory bodies of India. 12½
4. Point out the effective steps to be taken for checking smuggling of antiquity. 12½
5. Write an essay on the management of Heritage sites. 12½

7. What do you mean by correlation ? Distinguish between positive correlation and negative correlation. Show that the limit of correlation coefficient lies in between  $-1$  to  $+1$ . 9
8. Explain what are regression lines ? Why are there two regression lines ? Find the angle between two lines of regression and state when the two lines will be perpendicular to each other and when they will be coincident. 9

V-308-0.5

**2016**

Full Marks - 60

Time - 3 hours

The figures in the right-hand margin indicate marks

Answer *five* questions including Q.No1  
which is compulsory

**Group-A**

1. Answer any *four* of the following :  $6 \times 4$
- What are the various sources of collecting Secondary data ?
  - What do you mean by classification of data ? Explain the various types of classification with examples.
  - Show that  $AM \geq GM \geq HM$
  - Find the AM and SD of 1, 2, 3.....n
  - The AM and SD of a series of 20 items were calculated by a student as 20cm and 5cm respectively. But while calculating them an item 13 was misread as 30. Find the correct AM and SD.

[ 2 ]

- f) The coefficient of variation of series is 48%.  
The mode of the series is 264 and its SD is 96.  
Find coefficient of Skewness.
- g) Show that correlation coefficient  $r$  between two variables  $X$  and  $Y$  is given by

$$r = \frac{\sigma_x^2 + \sigma_y^2 - \sigma_{x-y}^2}{2\sigma_x \sigma_y}$$

Where  $\sigma_x$ ,  $\sigma_y$  and  $\sigma_{x-y}$  are S.D of  $x$ ,  $y$  and  $x-y$  respectively

- h) The equations of two regression lines obtained in a correlation analysis are as follows.  
 $3x + 12y = 19$      $3y + 9x = 46$ .  
Obtain the value of
- Correlation coefficient
  - $\bar{X}$  and  $\bar{Y}$
  - The ratio of coefficient of variability of  $X$  to that of  $Y$

[ 3 ]

### Group-B

- What is tabulation of data? Write the objectives of tabulation? Discuss the various parts of a table? 9
- Define Arithmetic mean? State and Prove its important properties? Why AM is considered as an ideal average? 9
- Write the difference between mean deviation and standard deviation. Prove that for any discrete distribution standard deviation is not less than mean deviation from mean. 9
- Define Skewness? Discuss the various measures of Skewness? Write the difference between Dispersion and Skewness. 9
- For a distribution mean is 10 and variance is 16.  $\gamma_1 = +1$  and  $\beta_2 = 4$ . Obtain the first four moments about the origin. Comment upon the nature of the distribution. 9

Full Marks - 80

Time - 3 hours

The figures in the right-hand margin indicate marks

Answer *all* questions

b) In any Case,

I set you free from all your obligations. You are not to feel yourself bound in the slightest way, any more than I shall. There must be perfect freedom on both sides.

OR

But our home has been nothing but a playroom. I have been your doll-wife, just as at home I was Papa's doll-child ; and here the children have my dolls.

1. Answer the following in one sentence each : 1×10

- a) Why is Chaucer famous in English literature ?
- b) What was the source of Miracle Plays ?
- c) Who is the author of *Utopia* ?
- d) What was the contribution of Earl of Surrey and Thomas Wyatt in English Literature ?
- e) Who is the author of 'The Faerie Queen' ?
- f) Name one play written by Ben Jonson.
- g) When was the Authorized Version of the Bible Published ?
- h) By whom was the play 'Duchess of Malfi' written ?

[ 2 ]

- i) Why is the year 1642 important in the history of British drama ?
- j) Name the most important dramatist among the University Wits.
2. Write short notes on any **three** of the following :  
5 × 3
- i) Shakespearean Sonnet
- ii) Translation of the classics during the Elizabethan period
- iii) Influence of Seneca on British drama
- iv) Conciets in John Donne's poems
- v) Restoration Drama.
3. a) Consider 'Dr. Faustus' as a Christian Play. 15
- OR
- b) Sketch the character of Dr. Faustus.
4. a) Discuss 'A Doll's House' as a problem play. 15
- OR

[ 3 ]

- b) Make an assessment of the character of Nora.
5. Write short notes on any **two** of the following : 7½ × 2
- i) Elegy
- ii) Ode
- iii) Tragic hero
- iv) Difference between Tale and Novel.
6. Annotate the following : 5 × 2
- a) I see there is virtue in my heavenly words'  
Who would not be proficient in this art ?  
How pliant is this Mephistophilis,  
Full of obedience and humility !
- OR
- Was this the face that launched a thousand ships,  
And burnt the topless towers of Ilium?  
Sweet Helen, make me immortal with a kiss.

[ 2 ]

3. a) Discuss the equilibrium of the firm and industry in short run under perfect competition.

OR

- b) Explain how price and output are determined in the long run under monopolistic competition.

4. a) 'Rent does not enter into Cost of Production ? Discuss.

OR

- b) Explain the liquidity preference theory of interest and point out the limitations.

5. a) What is welfare economics ? Discuss the problems in measuring welfare in an economy.

OR

- b) Critically examine the Paretian welfare criteria of welfare economics.

- Define an estimator and explain how it is different from a statistic.
  - With suitable examples discuss the characteristics of an estimator.
  - Write a short note on confidence belt.
  - Explain how a shortest confidence interval is obtained.
  - Give an idea of confidence sets.
  - For a random sampling from Normal Population  $N(\mu, \sigma^2)$  find MLE for  $\mu$  when  $\sigma^2$  is known.

[ 2 ]

- g) A random sample is obtained from a normal population with mean  $\mu$  and variance  $\sigma^2$ , find an MLE for simultaneous estimation of  $\mu$  and  $\sigma^2$ .
- h) When  $\mu$  is known find on MLE for  $\sigma^2$  for a random sampling from normal population with mean  $\mu$  and Variance  $\sigma^2$ .

**Group-B**

2. If  $X_1, X_2$  and  $X_3$  are random samples of size 3 from a population with mean  $\mu$  and variance  $\sigma^2$ .  $T_1, T_2$  and  $T_3$  are the estimators used to estimate mean value  $\mu$  where 9

$$T_1 = X_1 + X_2 - X_3$$

$$T_2 = 2X_1 + 3X_2 - 4X_3$$

$$T_3 = \frac{\lambda X_1 + X_2 + X_3}{3}$$

- i) Are  $T_1$  and  $T_2$  unbiased estimators
- ii) Find the value of  $\lambda$  such that  $T_3$  is an unbiased estimator for  $\mu$ .

[ 3 ]

- iii) With this value of  $\lambda$  is  $T_3$  a consistent estimator.
- iv) Which is the best estimator?

3. What is Black Wellisation. State and Prove Rao-Blackwell theorem. 9
4. What is minimum variance unbiased estimator (MVUE) Show that an M.V.U is unique. 9
5. What are the different methods of Estimation ? Discuss the method of maximum likelihood estimator. What are the properties of maximum likelihood estimator. 9
6. Define Confidence Intervals and Confidence Limits. How is it obtained ? 9
7. Obtain  $100(1 - \alpha)\%$  confidence intervals for the parameters (a)  $\theta$  (b)  $\sigma^2$  of the normal distribution

$$f(x, \theta, \sigma) = \frac{1}{\sigma\sqrt{2\pi}} e^{-\frac{1}{2}\left(\frac{x-\theta}{\mu}\right)^2}$$

$-\infty < x < \infty.$  9

**Group-B**

2. Give an account of the concept, definition and importance of Environment. 12½
3. Write a note on Natural Vegetation and Wildlife. 12½
4. Discuss about indigenous knowledge system on Environment and Societies. 12½
5. Explain Human Environment in relation to settlement and Agriculture. 12½
6. Make an estimate of the impact of modern Industries on Environment. 12½
7. What is Pollution ? Analyse the types of pollution and their impact on Environment. 12½
8. Describe the various Anti-pollution Movements undertaken in Independent India. 12½

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value

Answer *five* questions including Q.No 1 which is compulsory**Group-A**

1. Answer any *four* of the following: 7½×4
  - a) Environment in Vedas
  - b) Natural Vegetation
  - c) Ecology of Hills and Mountains
  - d) Water and Irrigation
  - e) New Regimes of Land
  - f) Degradation
  - g) The Issues of Dams
  - h) The Issues of Displacement.

**Group-B**

2. What are the characteristics of the basic competitive model ? Discuss the role of prices, property rights and profits for efficient working of the market. 12½
3. Analyse how the demand schedule and the demand curve are related. Why does the demand curve slope downwards to the right ? 12½
4. What is price elasticity of demand ? Explain the measurement of price elasticity of demand by point method. 12½
5. Illustrate consumer's optimum choice with the help of indifference curve analysis. 12½
6. Define budget line. What causes shift in the budget line ? What does the slope of the budget line measure. 12½
7. Explain the equilibrium of the firm operating under the conditions of perfect competition. 12½
8. Show how under perfect competition price of labour is equal to its value of marginal product. 12½

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value

Answer **five** questions including Q.No1 which is compulsory**Group-A**

1. Answer any **four** of the following : 7½×4
  - a) Show how problem of scarcity causes problem of choice.
  - b) Discuss three basic problems faced by an economy.
  - c) Distinguish between movement along the demand curve and shift in the demand curve.
  - d) Write a brief note on consumer surplus.
  - e) Indifference curve is convex to the origin. Analyse.
  - f) Income effect is always positive. Do you agree with the statement ? Give reasons.
  - g) State how anti-trust policy prevents monopoly practices.
  - h) Demand for a factor is derived demand. Examine.

**Group-B**

2. Explain the principles of Logic and point out their interrelations. 12½
3. What is distribution of terms ? Determine the terms distributed and undistributed in A, E, I and O propositions. 12½
4. Explain the different forms of opposition of propositions. Is sub-alternation a form of proposition. 12½
5. Distinguish between Partial Contrapositive and full contrapositive. Show that I can not be contraposed. 12½
6. What is mood ? Determine the valid moods of different figures of syllogism. 12½
7. Distinguish between direct reduction and indirect reduction. Is reduction necessary ? 12½
8. Explain the different kinds of hypotheses with suitable examples. 12½

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value  
Answer *five* questions including Q.No1  
which is compulsory

**Group-A**

1. Answer any *four* of the following : 7½×4
  - a) Explain with example the different parts of a proposition.
  - b) Explain the nature of Categorical Proposition.
  - c) Show that O cannot be converted.
  - d) Explain with example the fallacy of Illicit Process of minor term.
  - e) Distinguish between First Figure and Fourth Figure.
  - f) In what figures is the mood AEE valid.
  - g) Reduce 'CAMESTRES' directly.
  - h) Describe the situation when the framing of a hypothesis is necessary.

h) Write a note on socialculturia and education.

**Group-B**

2. State the constitutional provisions of Indian education that reflect secularism and social justice. 9
3. Explain R.N Tagore's Liberationist pedagogy in the context of philosophy and practice of education. 9
4. Discuss the concerns and issues as regards universalisation of school education in India. 9
5. Explain the provisions for equality of educational opportunity in India. 9
6. Discuss the inequalities prevailing in the school systems-Public and Private, Rural and urban in our state. 9
7. Write the recommendations of Education Commission (1964-66) on education for national development. 9
8. Explain the emerging trends in the interface between economic development and Education. 9

**2016**

Full Marks - 60

Time - 3 hours

The questions are of equal value

Answer *five* questions including Q.No1  
which is compulsory

**Group-A**

1. Answer any *four* of the following : 6 × 4
  - a) Explain what is meant by normative orientation of Indian education.
  - b) What are the aims of education drawn from the normative vision ?
  - c) Explain the aims of Sri Aurobindo's Integral education.
  - d) Explain the concerns for universal enrolment in school education.
  - e) Discuss the nature of inequality prevailing in dominant and minors group's education in India.
  - f) Elaborate the idea of common school system in India.
  - g) Explain the trend in the interface between political process and education.

**Group-B**

2. Define sociology and discuss its scope. 12½
3. Define community and discuss its characteristics. 12½
4. Define Secondary group and analyse the characteristics of the secondary group. 12½
5. Discuss briefly the functionalist theory of social stratification. 12½
6. Define social mobility and discuss its determinants. 12½
7. Define social control and discuss the informal means of social control. 12½
8. Analyse conflict as a dissociative social process. 12½

which is compulsory

V-336-0.2

**Group-A**

1. Answer any *four* of the following :  $6 \times 4$
- a) What do you mean by diagrammatic representation of statistical data ? Explain the advantages of graphical and diagrammatic representation.
  - b) Name the different type of averages ? Explain the characteristics of a good average.
  - c) Find mean and standard deviation of natural numbers 1, 2, 3.....n.
  - d) Define Mean deviation and Standard deviation and write the difference in between them.

[ 2 ]

- e) Show that for a discrete frequency distribution  $\beta_2 > 1$ .
- f) The first three moments of a distribution about the value 2 are 1, 16 and  $-40$  respectively. Examine the skewness of the distribution.
- g) The variables X and Y are connected by the equation  $ax + by + c = 0$ . Show that correlation between them is  $-1$  if the sign of a and b are all alike and  $+1$  if they are different.
- h) Define line of regression. Why two lines of regression? When two lines of regression will coincide.

**Group-B**

2. Explain the method of constructing Histogram and frequency polygon. Which out of these two is better representative of frequency of (i) a particular group (ii) Whole group. 9
3. Define Arithmetic Mean. State and Prove the properties of Arithmetic mean. What are the limitations of Arithmetic mean. 9

[ 3 ]

4. Define Standard deviation and Variance. Prove that Standard deviation is independent of change of origin but not scale. 9
5. Define moments. Establish the relationship between moments about mean in terms of moments about any point. 9
6. How do you define the term "The line of best fit". Give the normal equations generally used to obtain such a line. Fit a parabolic Curve to the following data relating to profits of a certain company 9

Year	1960	1962	1964	1966	1968
Profit in lakhs (₹)	125	140	165	195	230

7. Prove that Spearman's Rank correlation coefficient is given by 9

$$\rho = 1 - \frac{6 \sum di^2}{n(n^2 - 1)}$$

Where 'd' denotes the difference in ranks of an individual.

[ 2 ]

3. Derive 'IS' and 'LM' curves for an economy. 12½
4. Discuss in details the causes of inflation. 12½
5. 'Saving and Investment are related to the international flow of goods and capital'. Discuss. 12½
6. Account for the rapid growth of supply of money in India. 12½
7. Define the term unemployment. Discuss about natural, frictional and wait unemployment. 12½
8. Explain the determinants of residential and inventory investments. 12½

Answer *all* questions

- Why computer is called as Data processor. Draw and explain a block diagram to illustrate the basic organization of a computer system. 12

OR

- Write short notes on the following : 12
  - Error Detection Codes
  - Floating Point Representation
  - History of Computers
  - Types of Data.

- Convert the following numbers into their binary equivalent 12
    - $(352)_8$
    - $(A32)_{16}$
    - $(C74)_{16}$
    - $(698A)_{16}$

OR

[ 2 ]

- b) Write short notes on the following : 12
- i) 2's Complement form
  - ii) Decoding BCD to Decimal
  - iv) Encoding Decimal to BCD
  - vi) Error Detecting Codes.
3. a) What is Virtual Memory? Explain how program is executed by the help of virtual memory. 6
- b) What is a CACHE? Why it is necessary? Describe different mapping technique of CACHE. 6

OR

- c) How many types of storage are normally there in the storage unit of a computer system? Justify the need of each storage type. Differentiate between the characteristics of primary and secondary storage of a computer system. 12
4. a) WAP in assembly language to find out the greatest number among a set of given numbers. 6

[ 3 ]

- b) Write short notes on the following : 6
- i) JK-Master Slave
  - ii) Types of Logic Gates.

OR

- c) WAP in assembly language to find out the sum of two 8-bit numbers and result is 16-bit. 6
- d) Show how a NOR gate can be made into a NOT gate and how a NAND gate can be used as a NOT gate. Draw the logic gate for the following expression. 6
- $$(A\bar{B} + B\bar{C} + \bar{A}C)$$

5. a) A question paper has two parts P and Q, each containing 10 questions. If a student needs to choose 8 from part P and 4 from part Q, in how many ways can he do that? 6
- b) Compute the probability that the sum of the face values of the two dice is 8 when the dice are thrown simultaneously. 6

OR

[ 2 ]

b) Examine the functions and role of the World Bank as an engine of globalization.

3. Write short notes on any **one** of the following: 8

a) Geography as an element/determinant of National Power.

b) Concept of Spill-over

c) Collective Security Provisions under the UN Charter.

- c) Using while statement write a program to compute the sum of the digits of a given number. 4
- d) Compare in terms of their functions the following pairs of statements 4
- i) break and continue
  - ii) While and for.
3. a) Using array write a program to read  $n$  numbers and find their sum and average. 4
- b) Distinguish between the following : 4
- i) Actual and formal arguments.
  - ii) Automatic and static variables.

OR

[ 3 ]

- c) Using function write a program that will read the values of two variables say  $x$  and  $y$  and print their interchange values. 4
- d) Write the syntax of a two-dimensional array. Write a program that will read a 2-dimensional array and print it along with its transpose. 4
4. a) What is the difference between Structure and Union. Illustrate your answer with suitable example. 4
- b) Write a program using pointers to read in an array of integers and print its elements in reverse order. 4

OR

- c) Explain the difference between 'call by value' and call by reference. 4
- d) Write a suitable program to show how a structure is defined and values are assigned to structure members. 4

**2016**

Full Marks - 80

Time - 3 hours

The questions are of equal value

Answer **all** questions*Symbols used have their usual meaning*

- b) Find the equation of the cone whose vertex is the point (1, 2, 3) and whose guiding curve is given by the equation

$$x^2 + y^2 + z^2 - 4 = 0 = x + y + z - 1.$$

10. a) A tangent plane to the ellipsoid

$$\frac{x^2}{a^2} + \frac{y^2}{b^2} + \frac{z^2}{c^2} = 1$$

meets the coordinate axes on the points A, B and C. Find the locus of the centroid of the triangle ABC.

OR

- b) Find the equation of the generators of the hyperboloid of one sheet

$$\frac{x^4}{4} + \frac{y^2}{9} - \frac{z^2}{16} = 1$$

through the point (2, -1, 4/3).

1. a) Find all the asymptotes to the curve

$$x^3 + 4x^2y + 4xy^2 + 5x^2 + 15xy + 10y^2 - 2y + 1 = 0$$

OR

- b) Find the radius of curvature of the curve

$$(x^2 + y^2)^2 = a^2(x^2 - y^2)$$

at the point where the tangent is parallel to

$$x\text{-axis as } \frac{\sqrt{2}a}{3}.$$

2. a) Trace the curve  $y^2(2a - x) = x^3$ .

OR

- b) Find the entire length of the curve

$$x^{2/3} + y^{2/3} = a^{2/3}$$

[ 2 ]

3. a) Find the area of the curve  $r = a(1 - \cos \theta)$

OR

- b) Find the area of the curve  $r = a \sin 2\theta$ .

4. a) Find the volume of the solid generated by revolving one arc of the cycloid  $x = a(\theta + \sin \theta)$ ,  $y = (1 + \cos \theta)$  about x-axis.

OR

- b) Find the surface of the solid generated by revolving the arc of the parabola  $y^2 = 4ax$  bounded by its latus rectum.

5. a) Solve :  
 $(2x \cos y + 3x^2y)dx + (x^3 - x^2 \sin y - y)dy = 0$ ,  
 $y(0) = 2$ .

OR

- b) Solve :  $y + px = x^4p^2$

6. a) Solve :  $\frac{dy}{dx} = \frac{y}{2x} + \frac{x^2}{2y}$

OR

[ 3 ]

- b) Find the orthogonal trajectories of the family of curves

i)  $r^2 = a \sin 2\theta$

ii)  $y = x + ae^{-x}$

7. a) Solve :  $(x^2D^2 + 4xD + 2)y = \sin x$

OR

- b) Solve by reducing to normal form

$$y'' - 4xy' + (4x^2 - 1)y = -3e^{x^2} \sin 2x$$

8. a) Find Laplace transform of

(i)  $e^{-t} \cos^2 t$       (ii)  $\cos h^2 t$  at.

OR

- b) Solve using Laplace transform

$$y'' + 3y' + 2y = t, \quad y(0) = y'(0) = 0.$$

9. a) A sphere of radius  $r$  passes through the origin and cuts the coordinate axes at A, B and C. Prove that the centroid of the triangle ABC lies on the sphere  $x^2 + y^2 + z^2 = \frac{4r^2}{9}$ .

OR

**Group-B**

2. Solve the following basic competitive model. 12½  
 $Q_d = a - bp$   
 $Q_s = -c + dp$ , where  
 $Q_d$  = Quantity Demanded  
 $Q_s$  = Quantity supplied  
 $P$  = Price  
 a, b, c and d are parameters. 12½
3. Discuss the different methods of measurement of Price elasticity of demand. 12½
4. Explain how the consumer makes optimum choice given the indifference map and the budget constraint. 12½
5. Discuss how the consumer makes optimal choice between income and leisure and how the supply curve of labour is derived from income-leisure equilibrium. 12½
6. Discuss how a competitive firm takes output decision in short run and long run for maximising profit. 12½
7. Analyse the nature and shape of an input demand curve. Why does it shift upward and downward? 12½
8. What is an indifference curve? Explain its properties. 12½
